(*b*) in all other cases shall be for twice the face value of the note *plus* twice the amount of interest calculated in accordance with clause (*a*).

(*2*) The Bank may direct that such indemnity bond shall be executed by the applicant alone or by the applicant and one or two sureties as it may think fit, or that in lieu of furnishing personal sureties the applicant shall furnish collateral security in the shape of Government securities to be deposited with the office of the Bank at Calcutta for such amount and period as it may think fit.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 23rd September 1938.

First Forecast of the Winter Rice Crop of Bengal, 1938-39.

(*Note.*—On an average of the five years ending 1936-37, the area under winter rice in Bengal has represented some 20·5 per cent. of the total area under winter rice in India.)

Character of the season.—The weather was generally dry in March and April but heavy and incessant showers fell from May onwards and was soon after followed by flood. The sowings of the broadcast paddy and preparation of seed-beds were accordingly delayed and interfered with in Eastern and Northern Bengal. The early flood caused damage to and interfered with the growth of the broadcast winter paddy in parts of the North and East Bengal districts. In July the transplanting operation was at times suspended specially in North and East Bengal districts owing to flood and incessant rainfall. The Presidency Division also suffered considerable damage due to high flood. In Burdwan Division, however, the effect of weather has been favourable for the transplantation and growth of the plants although considerable area could not be transplanted in Midnapore due to insufficient rainfall at the beginning. On the whole, the season has been fairly favourable for the mid and high land crop. The present condition of the crop is fair.

Acreage.—According to the figures returned by the District Officers, the total acreage under winter rice is 15,735,900 acres as compared with 15,798,800 and 15,922,500 acres in the corresponding and final forecasts of last year respectively.

Outturn.—From the summary of the district returns appended it will be seen that two districts report a normal crop of 100 per cent., 17 districts a crop varying from 97 to 75 per cent. and the rest below 70 per cent. of the normal.

According to the above estimates, the provincial outturn works out to 80 per cent. as against 86 and 94 per cent. of the normal estimated in the corresponding and final forecasts respectively of last year.

M. CARBERY,

Director of Agriculture, Bengal.

First Forecast of the Winter Rice Crop of Bengal, 1938-39.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated out-turn as a percentage of the normal yield per unit of area.		Date by which the sowing of broadcasted winter rice generally commenced this year and whether that date was early, normal or late.	Date by which the transplanting of winter rice commenced this year and whether that date was early, normal or late.	Remarks by District Officers.

	Acres.	Acres.	Acres					
24-Parganas.	840,000	779,300	863,600	100	92	June. Normal ..	July. Normal ..	Increase in area is due to gradual spread of cultivation in the Basirhat and Sundarban. Weather has not been favourable in Basirhat and Barrackpore owing to excessive rain. Considerable damage caused by flood in Basirhat where 10,000 acres of broadcast winter paddy land was destroyed.
Nadia ..	350,000*	280,000	300,000	100	50	May. Normal	June. Normal ..	Increase in area is due to favourable weather condition at sowing time; but there was continuous heavy rain afterwards. The outturn is expected to fall much below the normal owing to severe damage caused by high flood.
Murshidabad.	416,200	433,000	436,500	111	97	June ..	June to July. Normal in Sadar and Lalbagh but early in Kandi and Jangipore.	Increase in area is due to timely rainfall. Effect of weather on the cultivation and growth of the crop has been favourable on high lands. Damage caused by high flood and excessive rain.
Jessore ..	434,000	367,500	472,000	83	40	Latter part of April and beginning of May. Late.	July. Normal ..	Insufficient rainfall delayed the sowing. Incessant rainfall followed by heavy flood afterwards have brought about destruction of the crop to the tune of 60 per cent. Increase in area is due to the fact that some *Bhols* in Magura subdivision which were hitherto regarded as unculturable waste lands have since been silted up and brought under cultivation.
Khulna	905,800	700,000	750,000	83	67	Beginning of June. Normal.	Latter part of July	Decrease in area is due to insufficient rainfall at the time of sowing. Effect of weather on the cultivation and growth of the crop has been bad owing to incessant rain and flood. About 25 per cent. was damaged due to flood and insect pests.
Burdwan	657,100	514,100	547,000	92	92	Middle of June. Normal.	Middle of July. Slightly late.	Increase in area is due to better rainfall though slightly late. Effect of weather on the cultivation and growth of the crop has been fair.

Now, therefore, in exercise of the power conferred by section 2A, read with sub-section (*1*) of section 2 of the Epidemic Diseases Act, 1897 (Act III of 1897), the Governor of Bengal is pleased to prescribe the following temporary regulations for the prevention and control of cholera, and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with, cholera in the said district for a period of three months:—

Temporary regulations for the prevention and control of cholera.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

Costs and compensation.

5. (*1*) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the Board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by that person:

Provided that where the conditions, which led the District Health Officer to pass such an order, are not attributable to any act or default of the persons in possession of the property, the Board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(*2*) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations, if he has failed to carry out an order issued under these regulations within the time specified in the order and to the satisfaction of the District Health Officer.

8. (*1*) If information has not already been given under regulation 7, the medical practitioner called in to attend upon any case of cholera shall forthwith give notice of the case by special messenger to the nearest Sanitary Inspector and by post to the District Health Officer and the cost of such messenger in each case shall be defrayed by the Board.

(*2*) The doctor-in-charge of a hospital or a dispensary within the district shall forthwith give notice of any case of cholera brought to such hospital or dispensary for treatment to the nearest Sanitary Inspector by a special messenger and to the District Health Officer by post and the cost of such messenger in each case shall be defrayed by the Board.

He shall not direct the patient to be removed from the house unless it is in his opinion impossible to make proper arrangements for his isolation therein.

12. The District Health Officer or a Sanitary Inspector may order that any person, who has in his opinion been exposed to infection from cholera, shall take such drugs in such quantities as may be specified by the District Health Officer or Sanitary Inspector or shall submit himself to anti-cholera inoculation within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 11 without the permission of the District Health Officer or a Sanitary Inspector.

14. The Board shall provide free of charge suitable places, with necessary attendants, medicine, diet and other necessaries for persons isolated under regulation 11: Provided that a private individual may provide places certified by the District Health Officer as being fit for the purpose of such isolation.

15. No person, who is or has been suffering from cholera, shall leave the place where he has been staying until he has received from the District Health Officer or a Sanitary Inspector written permission to do so.

18. The District Health Officer or a Sanitary Inspector may forbid any person who has been a patient or who has, to his knowledge, been in contact with a patient, to act as vendor of any article for such period as may be specified in the order.

18A. No person shall carry or permit to be carried in a public conveyance a patient except in the case where a patient is carried with proper precautions to a hospital.

19. No person shall sell any article which has been in contact with a patient until it has been disinfected to the satisfaction of the District Health Officer or a Sanitary Inspector.

19A. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such articles to be carried in any public conveyance, but nothing in this regulation shall apply to a person who transmits with proper precautions against spreading the disease any such article for the purpose of having the same disinfected.

19B. No person shall carry or permit to be carried in a public conveyance the dead body of any person who has died of cholera without the previous written permission of the District Health Officer or Sanitary Inspector, and without taking proper precautions against spreading the said disease.

20. (*1*) When the District Health Officer or a Sanitary Inspector is of opinion that the water in any well, tank, pool or other possible source of water-supply is contaminated or is likely to be contaminated, he may at once take such steps as he deems necessary to close such well, tank, pool or other source of water-supply, or may require the owner or occupier of land upon which such well, tank, pool or source of water-supply is situated, to take steps to close the same to the satisfaction of the District Health Officer or the Sanitary Inspector, as the case may be, within such time as may be specified in the order.

(*2*) The District Health Officer or a Sanitary Inspector may require such owner or occupier to keep closed during such a period as shall be specified in the order any well, tank, pool or other sources of water-supply closed under paragraph (*1*) of this regulation.

24. 26. Whenever the District Health Officer or a Sanitary Inspector is satisfied that the condition of any privy, urinal, drain, sewer or cesspool is such as to cause risk of spreading cholera to the inhabitants of the neighbourhood he may order the occupier of the land in which such privy, urinal, drain, sewer or cesspool is situated to disinfect, or to allow an officer of the Board to disinfect, the same with such disinfectants in such quantities and at such time as the said officer or inspector shall think fit.

27. The District Health Officer or a Sanitary Inspector may for the prevention of the outbreak or spread of cholera order the owner or occupier of any land to repair or make efficient to the satisfaction of that officer or inspector any drain, sewer, privy, urinal or cesspool which is situated upon such land or to remove any such drain, sewer, privy, or urinal or close any such cesspool within such time as may be fixed by the said officer or inspector.

29. DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 26th September 1938.

Preliminary forecast of the Bhadoi Crops of Bengal, 1938-39.

(*Note.*—On an average of the five years ending 1936-37, the area under autumn rice in Bengal has represented some 7·7 per cent. of the total area under rice in British India.)

Character of the season.—Rainfall in February was favourable for preparatory tillage and early sowings in East and North Bengal. In March and April the rainfall was scanty and the operations received a setback. Rain was badly needed for the growth of the crops. Occasional showers in the first half of May improved the general prospects. Later on heavy and incessant showers from the end of May onwards caused waterlogging of fields and affected the growth of the crops. Soon after sudden and early rise of rivers necessitated premature harvesting of autumn paddy. Conditions continued to be generally unfavourable. Wide areas in the Rajshahi, Dacca and Presidency Divisions and in the district of Noakhali have been totally destroyed either by incessant rainfall or heavy floods. The season has thus been a bad one for the *bhadoi* paddy.

Acreage.—The total acreage sown with different *bhadoi* crops this year is reported to be 6,394,300 acres as against 6,605,600 and 6,616,500 acres, respectively, in the corresponding and final forecasts of the last year.

Of this, the area under autumn rice is estimated at 5,708,400 acres as against 5,855,100 and 5,864,500 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 63 per cent. of the normal this year as against 82 and 83 per cent., respectively, in the corresponding and final forecasts of last year. Autumn rice is estimated to yield an outturn of 60 per cent. of the normal for the province this year as against 82 per cent. both in the corresponding and final forecasts of last year.

M. CARBERY,

Director of Agriculture, Bengal.

The District Judge includes the High Court in its ordinary original jurisdiction.

2. It shall apply to all marriages celebrated in British India, and shall apply to all persons domiciled in British India.

3. (*1*) No one shall marry during the lifetime of his wife or during the subsistence of a valid legal marriage with her, except in cases mentioned in section 4.

(*2*) Anyone purporting to marry in contravention of the above sub-section shall be liable to an imprisonment of six months, and all such marriages shall be deemed to be void.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to regulate (restrict) polygamy in British India. It is quite true that at the present moment the percentage of polygamous marriages is very small, but the very possibility that the husband can marry again during the lifetime of his wife without any reasonable and probable cause lowers the position of women in this country. In certain exceptional cases polygamy is permitted under this Bill but checks have been provided.

A

BILL

TO

Amend the Hindu Women's Rights to Property Act, 1937, and to make certain other provisions.

WHEREAS it is expedient to amend the Hindu Women's Rights to Property Act, 1937, for the purposes hereinafter appearing; It is hereby enacted as follows:—

1. (*i*) This Act may be called the Hindu Women's Rights to Property (Further Amendment) Act, 1938.

(*ii*) It shall come into force on such date as it receives the assent of the Governor General and sections 4 to 10 both inclusive shall have retrospective effect as if they had come into force on the 14th day of April, 1937, and it shall extend to the whole of British India.

2. Notwithstanding any rule of Hindu Law, custom or statute, contrary to or inconsistent with the provisions of this Act, the following sections shall apply.

3. Any property that has already come or shall hereafter come to a Hindu woman, either by inheritance, succession or partition, shall be her absolute property and she shall be competent to dispose of it as a full owner.

4. Such property of a woman, on her dying intestate, shall be inherited in the following order:—

(*i*) when she dies leaving her own daughter or daughters, the daughter or daughters shall inherit the same solely or in equal shares separately;

(*ii*) when she dies leaving no daughter, it shall descend to her son or sons in equal shares separately;

(*iii*) when she dies leaving no daughter or son of her own, it shall descend to her husband;

(*iv*) when she dies a widow, leaving no daughter or son, the property will devolve upon her husband's heirs separately;

(*v*) when she dies before her marriage, it will devolve upon the next heir of the person from whom she inherited it.

5. When a Hindu dies having at the time of his death a joint interest in a Hindu family property,

(*a*) leaving no male issue, his widow shall succeed to the interest of her deceased husband in such property and shall also be entitled to claim partition thereof;

(*b*) leaving a male issue or issues, the widow shall be entitled to a share equal to that of a son and shall also be entitled to claim partition thereof.

Explanation.—A Hindu governed by the Dayabhaga School of Hindu Law shall not be deemed to have a joint interest in a Hindu family property for the purposes of this Act.

6. When a Hindu dies intestate, having at the time of his death any separate property, other than a joint interest in a Hindu family property,

(*i*) leaving no male issue, his widow shall succeed to the property of her deceased husband and shall also be entitled to claim separate possession by partition thereof, if it has not been divided;

(*ii*) leaving a male issue or issues, the widow shall be entitled to a share equal to that of a son and shall also be entitled to claim separate possession by partition thereof.

7. The widow of a predeceased son shall inherit in like manner as a son if there is no son surviving of such predeceased son, and shall inherit in like manner as a son's son if there is surviving a son or son's son of such predeceased son. The same provision shall apply *mutatis mutandis* to the widow of a predeceased son.

8. The provisions of sections 5, 6 and 7 of this Act shall not apply to an estate which, by a customary or other rule of succession or by the terms of the grant applicable thereto, descends to a single heir or to any property to which the Indian Succession Act, 1925, applies.

9. Nothing in sections 5, 6 and 7 of this Act shall apply to the property of any Hindu dying intestate before the 14th day of April, 1937.

10. For the purposes of this Act, a person shall be deemed to die intestate in respect of all property of which he has not made a testamentary disposition, which is capable of taking effect.

STATEMENT OF OBJECTS AND REASONS.

Under the Hindu Law as it stands at present, a Hindu wife is entitled to succeed to her husband's property, if he is not a member of a joint family and dies without male issue. A Hindu daughter is also entitled under the present Hindu Law to succeed to her father's property, if he dies leaving no son or wife and no other co-parcener with whom he was joint at the time of his death. A Hindu woman also gets a share on partition between her sons or between her husband and a son. The

law of the Madras School, however, does not allot her a share on partition but allows only a provision to be made for her maintenance. The recent legislation has done some justice to a Hindu widow by improving her rights in her husband's property after his death. The property which a Hindu woman gets either by inheritance, succession or on partition, whether under the Hindu Law or under the recent enactment, is, however, a limited interest which, on her death, passes not to her heirs but to the heirs of her husband, however remote (and except a daughter under the Bombay School), whether the property is inherited by a wife, daughter or mother of a Hindu, she can only enjoy the income of it but cannot dispose of the corpus, while a daughter's son and a remote male heir of the last full owner on his succeeding to the property becomes its full owner.

With a view to enlarge her restricted rights to property by section 3 of the Bill, it is proposed that the property which a Hindu woman gets under the present law should be her absolute property like that of a male heir, instead of the limited interest which the law gives her now. It will thus be seen that this section only enlarges the nature of the interest which she possesses under the existing law.

Section 4 of the Bill seeks to define the order of succession to such absolute estate which a Hindu woman would acquire under section 3.

The proposed order of succession is more equitable and simpler to work than the complicated order of succession to *Stridhana* property, which makes a distinction between unmarried and married daughters and unprovided and provided daughters. On the whole it is in consonance with Hindu ideas and sentiments of devolution of property among members of the same family.

Sections 5 and 6 of the Bill do not in any way change the existing law embodied in section 3 of the Hindu Women's Rights to Property Act. Although the Act has been amended, it still requires some verbal modifications. With this object, section 3 of the Act has been recast to remove certain ambiguities arising from the expression "Same share as a son" at the end of section 3 (*i*).

In several systems of law in European countries also, the rights of women in property at one time were restricted, which, however, have been subsequently enlarged by legislation. In view of the modern conditions of life, it is but just and equitable that the rights of Hindu women to property should be similarly enlarged by converting their limited interest into absolute ownership.

A

BILL

TO

Declare illegal polygamous marriages among Hindus.

WHEREAS it is expedient to forbid and declare illegal a marriage contracted by a Hindu with another woman in the life-time of his wife; It is hereby enacted as follows:—

1. (*i*) This Act may be called the Hindu Polygamous Marriage Restraint Act of 1938.

(*ii*) It extends to the whole of British India and shall come into force on such date as it receives the assent of the Governor General.

2. Notwithstanding any rule of Hindu Law or custom to the contrary, a marriage contracted by a Hindu after the commencement of this Act with another woman in the life-time of his wife shall be void, and the provisions of sections 494 and 495 of the Indian Penal Code shall apply to such marriage:

Provided that this section shall not apply to a marriage contracted by a Hindu, after dissolution, where permissible by law, of his marriage with his former wife has been granted by competent authority or the marriage has been otherwise validly dissolved, where, by law or custom, a dissolution of marriage is permissible.

3. The provisions of this Act shall apply to a Hindu even after his conversion to another religion.

STATEMENT OF OBJECTS AND REASONS.

Although polygamy has been looked upon with disfavour by Hindu jurists and society, the Hindu Law does not prevent male persons from marrying any number of wives, irrespective of their having one or more wives alive. Flagrant cases of the abuse of this liberty given to men under the Hindu Law have come to light during recent years. In order to prevent the growth of such an evil, it is desirable to restrain polygamous marriages among Hindus by law.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 15th October 1938.

Second Forecast of the Sugarcane Crop of Bengal, 1938-39.

(*Note.*—On an average of the five years ending 1936-37 the area under sugarcane in Bengal has represented some 7·5 per cent. of the total area under sugarcane in British India.)

Character of the season.—As reported in the first forecast a spell of drought shortly after the planting time followed by heavy and incessant rainfall adversely affected the growth of the crop. Subsequent high flood has done damage to the crop in the Presidency Division and in a number of districts in North and East Bengal. The present prospects are fair.

Area planted.—The total area planted with the crop is estimated to be 300,700 acres this year as against 290,100 acres reported in the corresponding and final forecasts of last year. The increase in area as compared with the last year is due to favourable weather conditions at the sowing time and to increased price of *gur* and jute restriction propaganda.

Outturn.—According to the estimates of the district officers, the average outturn of the crop for the province this year works out at 75 per cent. of the normal against 88 and 84 per cent., respectively, in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for the sugarcane crop is estimated at 75 per cent. as against a ten years' average of 86 per cent. This means that the condition of this year's crop is equal to about 87 per cent. of the ten years' average.

Resolution on the report on the administration of the Jail Department of the province of Bengal for the year 1937.

GOVERNMENT OF BENGAL.

HOME DEPARTMENT.

Jails.

CALCUTTA, THE 11TH OCTOBER 1938.

RESOLUTION—No. 3906H.J.

Read the report on the Administration of the Jail Department of the province of Bengal for the year 1937.

1. The jails in the province continued to be overcrowded, but the measures described below resulted in an improvement of the general position. Towards the close of the year advantage was taken of the departure of His Excellency Sir John Anderson to order the release of a number of old and infirm convicts with short sentences and prisoners convicted of non-heinous offences, who had a comparatively short time still to serve. The number released under these orders was 2,811. In addition, the new Central Jail at Dum Dum was brought into use by stages and was approaching completion at the end of the year, and the temporary jails at Dum Dum, Hijli and Berhampore were closed down, except for small maintenance parties, or parties of convicts employed for short periods as convict-servants, in connection with detention camps. The total registered capacity of buildings of a permanent character is now equal to the numerical demands of the population, but the continued presence of terrorist convicts, and of a large number of prisoners awaiting trial, which is still a feature of the situation, makes local overcrowding unavoidable.

2. The number of juvenile and adolescent convicts is an indication that, if a decrease in crime and in the jail population is to be looked for, adequate attention must be paid to the proper treatment of young persons. This is a matter which is already engaging the attention of the Ministry, and a scheme for the extension of the Bengal Children Act and for the establishment of new and larger Reformatory and Industrial Schools is under examination. The existing institutions are doing admirable work, but are inadequate to deal with the problem.

3. The Borstal School at Bankura although overcrowded maintained the high standard of past years. The education given there is normally of the primary standard supplemented by vocational or industrial training, but boys who are fit for higher education are coached up to the Matriculation standard, and during the year one boy passed the Matriculation examination. The special sections with educational facilities started in the Presidency and Alipore Central Jails, were continued with good results, and an experienced officer of the Education Department has been asked to report on the future organization of education for adolescent prisoners in these and other jails. He will advise what permanent staff is necessary, and the terms or conditions on which it should be recruited. In addition advantage will be taken of the visit of the Director of Public Instruction to Europe for that officer to vist special schools dealing with the juvenile delinquency with a view to adopting suitable features for introduction in Bengal.

4. Government note with regret that the admission of short-term prisoners with sentences not exceeding one month remained as high as before, and that no less than 10,000 persons were sentenced to simple imprisonment during the year. So far as the Jail Department is concerned prisoners of these classes represent a dead loss. The Administration has to feed and maintain them, it can receive no return whatever in the form of remunerative labour, and can seldom, if ever, produce beneficial effects either physically or mentally upon the persons so dealt with. Such prisoners contribute to over-crowding, and are a bad influence inside the jail.

5. There was a further decrease in most districts in the average period of detention of prisoners awaiting trial, but improvement may still be looked for in the districts of Birbhum, 24-Parganas, Nadia, Jessore, Rajshahi, Dinajpur, Bogra, Dacca, Faridpur and Bakarganj.

6. Government note with pleasure that the discipline among the warder-staff was satisfactory, and that the number of departmental punishments decreased. Bengalee candidates are coming forward, and are being recruited in increasing numbers as warders.

7. Under the prevailing conditions of overcrowding, combined with the presence of a large proportion of short-term prisoners in the jails, the problem of finding employment for the jail population is difficult. Of the daily average of 17,615 convicts under sentence of labour, work was found for 15,770 or 89 per cent., but much of this work was unremunerative. Only 35 per cent. could be employed on jail manufactures, and the net profit fell to Rs. 2,59,924 against Rs. 3,16,335 in the preceding year.

8. Government have read with pleasure the names of those officers who have been commended by the Inspector-General of Prisons, Bengal, in his report, and take this opportunity to record their appreciation of the services rendered by Lt.-Col. M.A. Singh, I.M.S., as head of the department during the year.

9. Since the close of the year under review Government have issued a questionnaire to the Boards of official and non-official visitors and to members of the Legislature calling for opinions and suggestions on all important points in the prison administration. Answers have been received and are under examination with a view to the introduction of reforms and improvements.

NOTIFICATIONS.

No. 9536F.—11th October 1938.—The following amendments to the Bengal Financial Rules, 1st Edition (Reprint), 1930, which have been authorised, are published for general information.

Amendments.

Page 51—Rule 135A.—Substitute the following for rule 135A, as inserted by correction slip No. 70, dated the 14th June 1930:—

"The following rule lays down the accounts procedure for the incorporation of general charges in the Stock Accounts, etc.:—

An additional sub-head of stock should be opened, known as 'Storage' and a new term 'Storage charges' (as distinct from supervision charges mentioned in paragraph 72 of the Public Works Accounts Code). The sub-head 'Storage will be debited with all expenditure incurred, after the acquisition and delivery of stores at the godown, on work charged establishment employed on handling and keeping initial accounts, the custody of stock and the maintenance of the store godown or yard, etc., etc. It will be credited with the recoveries to be known as 'Storage charges' made on the basis of a storage rate to be levied on all issues of stock. This storage rate will be fixed annually by the authorities of each division or subdivision on the principle that the total estimated annual expenditure on storage is, as far as possible, recovered from the issues likely to be made during the year. The balance under the head 'Storage' at the end of each year will be required to be finally adjusted on closing the accounts of that year, as a surplus or deficit, *i.e.*, as profit or loss according as it is a *minus* or *plus* balance and shall not be carried forward to the following year."

Paragraph 4 of the existing rule as inserted by correction slip No. 111, dated the 13th March 1931, shall be re-numbered as paragraph 2.

Provided that for an election held to fill a casual vacancy or vacancies the registration list shall be corrected in respect only of names of voters eligible to vote in the particular constituency or constituencies concerned.

The corrected registration list shall be published at the office of the Returning Officer on the said last date for receipt of nomination papers and no practitioner whose name is entered in the Register of Registered Ayurvedic Practitioners on or after such last date shall be entitled to vote at the next succeeding elections.

Nomination of candidates for election.

11. (*1*) Any person whose name is included in the Register of Registered Ayurvedic Practitioners and who is not disqualified for election to the Council under section 4 may be nominated as a candidate for election under clause (*b*), clause (*d*) or clause (*h*) of section 2.

Provided that no elector shall subscribe, whether as proposer or seconder, more nomination papers than the number of vacancy or vacancies to be filled at the particular election by the electorate to which he belongs.

(*4*) The nomination paper shall be subscribed also by the candidate nominated as assenting to the nomination and shall be forwarded by post or otherwise to reach the Returning Officer not later than the latest date and time specified by him thereon for its return.

12. On receipt of each nomination paper the Returning Officer shall forthwith endorse thereon the date and hour of its receipt.

He shall examine each nomination paper and shall record on it his decision accepting or rejecting the same, and, if a nomination paper is rejected, shall state in brief his reasons for such rejection, *e.g.*, that it does not comply with the requirements of any particular rule or that it has arrived after the latest date and time fixed for the receipt of nominations.

13. If more nomination papers than are allowed by the proviso to rule 10(*3*) be subscribed by the same elector, then only the permissible number of such nomination papers first received by the Returning Officer shall, if otherwise in order, be held to be valid, but if the Returning Officer is unable to determine the order in which such nomination papers were received by him, all of such nomination papers shall be held to be invalid.

14. Every nomination paper in respect of which any requirement of these rules has not been complied with, or which is not received by the Returning Officer on or before the latest date and time fixed for the sending in of nomination papers, shall be invalid.

N. B.—Temporary change of address of a voter shall be disregarded.

(*2*) The Returning Officer shall decide all objections to his decision as well as all questions which may be raised as to the validity of any nomination, and his decision on any such question shall, subject to the provisions of rules 33 and 34, be final.

16. Any candidate may withdraw his candidature by notice in writing subscribed by him and delivered to the Returning Officer up to 3 o'clock in the afternoon on the date succeeding that appointed for the scrutiny of nominations. A candidate who has withdrawn his candidature shall not be allowed to cancel the withdrawal or to be renominated as a candidate for the same election.

Election and voting.

17. (*1*) If in the case of an election, whether general or casual, to be held at any time under any clause of section 2, the total number of duly nominated candidates who stand for election or remain in the field after withdrawal of candidates does not exceed the number of vacancies, the Returning Officer shall on the completion of such scrutiny in the presence of the candidates, their proposers and seconders forthwith declare such candidate or candidates to be elected.

Should this contingency arise as a result of withdrawal under rule 15 communicated after the scrutiny no poll shall be held for the particular electorate concerned and the fact shall forthwith be notified in the *Calcutta Gazette*, but the formal declaration of result of its election shall be held over until the date of counting of votes in respect of other electorates.

(*2*) If the number of such candidates exceeds the numbers to be so elected, the Returning Officer shall—

(*a*) cause the names, qualifications, registration numbers and addresses of the candidates offering for election under each such clause to be entered alphabetically in the order of their surnames in a separate voting paper in Form III in the Appendix, and

(*b*) thereupon publish in the *Calcutta Gazette* and in such other manner as he may think fit the said names, with the respective qualifications, and addresses, classified according to the clauses of section 2.

(*3*) The Returning Officer shall by a date fixed under rule 24 send by registered post to each qualified elector concerned *at his registered address* one such voting paper (and no more) of candidates for election under the clause or clauses of section 2 under which he is qualified to vote, with an identification envelope in Form IV in the Appendix:

Provided that—

Such a voting paper with an identification envelope shall also be issued to such an elector (if any) to whom a voting paper has not been sent already, on his applying to the Returning Officer for the same at any time before the latest date and time appointed by him for return of voting papers. In no other case shall a voting paper be issued after the last date prescribed under rule 24 for the issue of voting papers nor shall a voting paper sent to a voter by post but returned undelivered by the post office be re-issued to him on its return to the office of the Returning Officer.

(*4*) No election shall be invalidated by reason of the non-receipt by any elector of a voting paper.

18. (*1*) Each qualified elector desirous of recording votes shall mark the voting paper issued to him with a *single* cross X (and no other mark) *in the proper column* against the name or names of the candidate or candidates (not exceeding the number of members to be elected) for whom he intends to vote (*A vote recorded otherwise than on the voting paper supplied shall not be accepted.*) No elector shall give more than one vote to any one candidate.

Explanation.—At a general election under clause (*b*) of section 2, a qualified voter entered on the electoral roll of a Division will be

entitled to give only one vote at the election from that Division. For the electorate under clause (*d*) of section 2, a qualified voter entered on the electoral roll of Calcutta constituency may vote for four candidates giving each candidate one vote. For the electorate under clause (*h*) of section 2, a qualified voter entered on the electoral roll of Tol constituency may vote for three candidates giving each candidate one vote.

(*2*) The qualified elector shall sign furnishing full particulars the requisite declaration printed on the identification envelope received with each voting paper, place the voting paper in that envelope close it and deliver it personally to or send it singly by post to reach the Returning Officer on or before the latest day and time fixed by him for the return of voting papers with the relative identification envelopes.

(*3*) No voting paper will be accepted unless it is enclosed in the identification envelope supplied with it, and any defect, *e.g.*, incompleteness in the entries required on the envelope or its receipt after the latest day and time fixed for its return with the proper voting paper shall invalidate both the envelope and the voting paper enclosed.

(*4*) Every voting paper in respect of which any requirement of these rules has not been complied with or on which a mark is placed in such a manner as to make it doubtful to which candidate the vote is given or on which the elector has placed any mark whereby he may be afterwards identified or on which an alteration or erasure occurs indicating a change of vote or which is not received by the Returning Officer on or before the latest day and time fixed for the return of voting papers, shall be invalid.

Counting of votes and declaration and publication of results of election.

19. (*1*) On receiving the identification envelopes the Returning Officer shall divide them into separate batches according to the different electorates concerned and shall examine the envelopes in each batch separately as regards the completeness or otherwise of the particulars required to be entered thereon, and shall record his decision "rejected" on any identification envelopes which are incomplete in any requisite entry, mark thereon the incompleteness of entry and place them in safe custody for inspection at the counting of votes. The distinction of divided batches and sets shall be maintained throughout the entire process of counting of votes.

(*2*) The Returning Officer shall place the identification envelopes which are complete in requisite entries which he provisionally accepts as containing valid voting papers without opening them in a separate ballot box for each electorate.

20. (*1*) The Returning Officer shall attend for the purpose of counting the votes on such date or dates and at such time and place as may be appointed by him under rule 24.

(*2*) Every candidate may be present in person or may send a representative, duly authorised by him in writing, to watch the process of counting.

(*3*) The Returning Officer shall show all identification envelopes whether accepted or rejected to the candidates or their representatives for examination of the propriety of their acceptance or rejection, and dispose of any objection taken to his decision in the manner prescribed in sub-rule (*5*).

(*4*) The accepted identification envelopes in sets where so divided under sub-rule (*1*) of rule 19 will then be opened in the presence of the candidates or their representatives appearing under sub-rule (*2*)

and the voting papers will be separated from their covers which will be kept aside from view and the Returning Officer will thereupon proceed to examine the voting papers to see whether they have been filled up correctly in respect of every requisite particular. He shall record his decision "rejected" on every voting paper which is found to be defective in any respect and indicate thereon with reference to rule 16 the ground of rejection very briefly. The remaining voting papers will be deemed as accepted. Each convenient batch of voting papers, whether accepted or rejected, will be presented in separate sets where so divided to the candidates or their representatives present for examination of the Returning Officer's decision.

(*5*) If any objection is taken to his decision of acceptance or rejection of any identification envelopes or voting papers, such objection shall be decided at once by the Returning Officer, whose decision shall, subject to the provision of rules 33 and 34, be final.

(*6*) The Returning Officer shall separate or cause to be separated the accepted voting papers from those that have been rejected and keep them in separate bundles. The identification envelopes originally rejected and those provisionally accepted when separated from their enclosed voting papers shall also be kept in separate bundles. All these bundles of voting papers and identification envelopes will be placed in safe custody for disposal under rule 22.

21. (*1*) When the counting of the votes of each electorate has been completed by the conduct of the operation on one or more days as necessary the Returning Officer shall, subject to the provisions of section 2, and of the subsequent portion of this rule, forthwith declare the duly qualified candidate or candidates, as the case may be, to whom the largest number of valid votes has been given to be elected.

(*2*) When an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the said candidates to be declared elected, the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

(*3*) When a candidate elected for a particular electorate by operation of sub-rule (*1*) happens subsequently to receive the highest number of valid votes of another electorate he shall be allowed to choose for which of the two electorates he shall serve and the choice once made by the candidate shall be final.

When a seat of a particular electorate remains unfilled by the operation of this sub-rule or becomes vacant by the refusal of the elected candidate to serve, such refusal being signified before his name is published in the *Calcutta Gazette* under rule 23, the seat may be filled by that one among the other candidates willing to accept office who has received the highest number of votes among unsuccessful candidates of the electorate affected at the election. If there is no unsuccessful candidate a fresh election shall be held to fill the vacancy thus created.

The Returning Officer shall determine which candidate should be declared as elected under this sub-rule and announce the results as soon as possible after the counting of votes.

The declaration in this case may be made either in the presence of the candidates or their representatives if present or merely by notification in the *Calcutta Gazette* under rule 23.

(*4*) The Returning Officer shall immediately report the results of the elections to the President. Should the election fail to secure members with the requisite qualifications required by section 2 in any case, the defect in respect of each electorate should at the same time be reported for the information of the President along with any defect in the number of candidates that offered for election and the want of candidates willing to accept office in circumstances contemplated in paragraph 2 of sub-rule (*3*).

22. Upon the completion of the counting of votes and after the results have been declared by him, the Returning Officer shall seal up the voting papers with their identification envelopes and all other documents relating to the elections and shall retain the same for a period of six months and thereafter cause them to be destroyed.

23. The Returning Officer shall as soon as may be after the election publish the names of the candidates declared elected in the *Calcutta Gazette*.

24. The Returning Officer shall appoint and shall notify in the *Calcutta Gazette* and in such other manner as he may think fit such date or dates or latest date, as the case may be, and, if necessary, such time and place as may be deemed suitable, for each of the following operations of an election, namely:—

(*a*) the receiving of nominations under rule 11;

(*b*) the scrutiny of nomination papers under rule 15;

(*c*) the sending of voting papers with the relative identification envelopes under rule 17;

(*d*) the receiving of voting papers with the relative identification envelopes under rule 18; and

(*e*) the counting of the votes under rules 20 and 21.

The dates appointed must ensure the completion of the election, in the case of a general election in ample time before the expiry of the term of office of the sitting members and, in the case of a casual vacancy under section 7, sub-section (*1*) resulting from the death or resignation of a member or from the operation of rule 35, within two months prescribed by section 8.

Report of results of elections by the President to the Local Government.

25. On receipt of the report under rule 21 (*4*), the President shall forthwith report to the Local Government the results of all elections for publication in the *Calcutta Gazette*. He shall at the same time report what seats, if any, of any electorate could not be filled by election stating the reasons for the same. If the election from any particular electorate fails the Local Government shall order a fresh election and in case the second election also proves abortive, the Local Government shall appoint the requisite number of members. The members so appointed shall thereupon be deemed to have been elected from that particular electorate.

Election of President and Vice-President under clause (a) of section 2.

26. Within one month from the date of publication of the names of the members elected and appointed under section 2, whichever is the later, a meeting shall be held for the election of President and Vice-President of the Council. The date of such meeting shall be fixed by

the outgoing President or Vice-President and necessary notices issued by him to all the elected and appointed members at least 15 days before the date fixed for the meeting.

The members present shall elect one of their member to preside at the meeting as their Chairman. The Chairman shall be duly proposed and seconded and must not be a candidate for the office of President or Vice-President.

27. If only one member is proposed and seconded as Chairman, he shall be deemed to be duly elected as such. If more than one member is proposed and seconded, the members present shall decide the election by vote. The votes may be taken by show of hands or by ballot.

If the votes for two or more members proposed as Chairman of the meeting are equal, then the selection of one of them shall be decided by lot.

28. The election of the President of the Council shall proceed as follows:—

(*a*) Any member present may propose a candidate by name for the office of President.

(*b*) No candidature shall be taken into consideration unless it has been seconded by a member other than the proposer.

(*c*) If there is only one candidate duly proposed and seconded for election, the Chairman shall forthwith declare such candidate to be elected.

(*d*) If there be more than one such candidate for election as President, the Chairman shall hand to each member present a voting paper in form V in the Appendix in which the names of the candidates who have been duly proposed and seconded shall be entered, and shall ask each member in turn to record his vote, at a table so placed that no other person can overlook him, by placing the mark x in the place provided for the purpose in the voting paper, opposite the name of the candidate for whom the member intends to vote, and to sign his name on the back of the counterfoil of the voting paper.

(*e*) The voting paper shall be invalid if the mark x is placed opposite the name of more than one candidate, or if it is so placed as to render it doubtful to which candidate such mark is intended to apply.

(*f*) Each member after placing the mark x on the voting paper shall fold the counterfoil so as to conceal the votes recorded, sign his name on the back of the counterfoil and then hand the paper to the Chairman. Without such folding of the counterfoil or signature the voting paper shall be invalid.

(*g*) The Chairman shall have the right of participating in the election of the President and shall similarly record his vote.

(*h*) As soon as all the voting papers have been delivered to the Chairman, he shall, in the order hereinafter specified,—

(*1*) reject any voting paper which is unsigned or of which the counterfoil is not properly folded as prescribed in clause (*f*);

(*2*) tear off the counterfoils containing the signatures and place them apart from the voting papers proper;

(3) reject any voting paper which is irregularly marked;

(4) read out the names of the candidates against which the mark x has been validly made;

(5) count the votes; and

(6) declare the candidate to whom the largest number of votes has been given to be elected as President of the Council.

(i) In the case of an equality of votes the Chairman shall have a casting vote.

29. The Chairman elected under rules 26 and 27 shall preside at the meeting for the election of the Vice-President as well and the same procedure shall apply as for the election of the President.

30. In the case of a casual vacancy occurring in the office of the President, the vacancy shall be filled by an election held within 21 days of its occurrence and the procedure laid down in rule 28 shall be followed. The Vice-President shall preside over such a meeting unless he is a candidate for the office of President. If the Vice-President is absent or is a candidate for such office, the members shall select one of their number, who is not a candidate for the office in accordance with the procedure laid down in rules 26 and 27, to preside over the election.

31. In the case of a casual vacancy occurring in the office of the Vice-President, the vacancy shall be filled by an election, to be held, within twenty-one days from the date of occurrence of the vacancy, at a meeting in which the President or, in his absence, a person, who is not a candidate for the office of the Vice-President and is elected by the members from among themselves in accordance with the procedure prescribed in rules 26 and 27, shall preside. The election of the Vice-President shall be held in accordance with the procedure prescribed in rule 28.

32. The name of the person elected as President or Vice-President shall be forthwith reported to Government by the Chairman of the meeting, for publication in the *Calcutta Gazette*.

Finality of decisions of the Local Government.

33. The Local Government may, of its own motion or on objection made within three months from the date of the election, declare any election to the Council to be void on account of corrupt practice (*e.g.*, bribery, undue influence, personation, publication of false statements) or any other sufficient cause, and may call on the electorate affected to make a fresh election within a specified date, and any decision of the Local Government under this rule shall be final.

34. The decision of the Local Government on any question that may arise as to the intention, construction or application of these rules shall be final.

Vacation of seat.

35. If a registered practitioner having been elected or nominated a member is found guilty of infamous conduct in any professional respect and his name is removed from the Register of Registered Practitioners, the Council shall, at the same time, declare his seat to be vacant.

The President shall report the fact to the Local Government and the vacancy shall be filled like a casual vacancy within two months by fresh election or nomination as the case may be, under sections 2 and 8 in the manner prescribed by these rules.

NOTIFICATIONS.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

(*2*) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

(*2*) The District Health Officer or a Sanitary Inspector may require such owner or occupier to keep closed during such a period as shall be specified in the order any well, tank, pool or other sources of water-supply closed under paragraph (*1*) of this regulation.

26. Whenever the District Health Officer or a Sanitary Inspector is satisfied that the condition of any privy, urinal, drain, sewer or cesspool is such as to cause risk of spreading cholera to the inhabitants of the neighbourhood he may order the occupier of the land in which such privy, urinal, drain, sewer or cesspool is situated to disinfect, or to allow an officer of the Board to disinfect, the same with such disinfectants in such quantities and at such time as the said officer or inspector shall think fit.

27. The District Health Officer or a Sanitary Inspector may for the prevention of the outbreak or spread of cholera order the owner or occupier of any land to repair or make efficient to the satisfaction of that officer or inspector any drain, sewer, privy, urinal or cesspool which is situated upon such land or to remove any such drain, sewer, privy, or urinal or close any such cesspool within such time as may be fixed by the said officer or inspector.

The District Health Officer or a Sanitary Inspector may during the prevalence of any outbreak of cholera order that any market, shop or other public place shall remain closed for such time as may appear to him to be necessary and may forbid the holding of any fair, *mela* or other gathering to which people from several villages commonly or periodically resort.

29. The District Health Officer or a Sanitary Inspector may require the owner or occupier of any land to clear and remove, within the period specified in the order, any vegetation upon such land the existence of which in the opinion of the said officer or inspector conduces to the committing of nuisances upon such land.

30. The District Health Officer or a Sanitary Inspector may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as lime-washing of houses, clearing of latrines or the removal of filth or rubbish shall be carried out to his satisfaction.

36. The District Health Officer may order that no *dome* or other servant of the Board employed for the disposal of corpses shall withdraw from his duties without the permission of the District Health Officer unless such *dome* or other servant of the Board has given notice in writing not less than one month previously of his intention so to withdraw.

37. The District Health Officer or a Sanitary Inspector may through any person authorised by such officer or inspector in that behalf seize and dispose of any corpse, which in the opinion of the said officer or inspector, is infected with or is likely to spread cholera, unless the relatives or friends of the deceased person satisfy him that they are prepared and able to dispose of the corpse in a manner which will prevent the spread of cholera.

38. (*1*) The District Health Officer or Sanitary Inspector may require any person who appears to be acquainted with facts in connection with any case of cholera or suspected cholera to attend before him at a time to be stated in the order and at any place not more than one mile from the place where such person resides or is staying when the order is issued, and such person shall appear as so required.

In addition to the details as required on the reverse, information is given below under the following heads: —

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular step which the municipality has taken or has agreed to take in order to make good the deficiency.

(*a*) The ordinary surplus is not insufficient.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality. The rates at which each of the taxes mentioned in column 12 on the reverse are levied, other than tax on persons, should be stated here.

(*b*) By the general revision of assessment which will take effect this year it is anticipated that the income of the municipality will be considerably increased due to the addition of new holdings.

Column 12 of application.

(1) Rates on holdings at 7½ per cent. on the annual value of holdings.

(2) Water rate at 7½ per cent. on the annual value of all connected holdings and of all holdings situated on roads supplied with water pipes and at 6 per cent. on holdings situated on roads not so supplied while holdings beyond a radius of 750 feet from the nearest stand-pipe being exempted from water-rate.

(3) The conservancy rate is fixed at the uniform rate at 6¼ per cent. on the annual value of holdings.

(4) Lighting rate is not in force for the present till electricity is introduced.

(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved and the amount still payable.

The instalments are paid regularly on the prescribed dates.

(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when each position is otherwise than the ordinary surplus would indicate.

(*d*) Besides under the proposed scheme of independent waterworks for which the loan is to be taken, there will be nett saving in the recurring expenditure amounting to Rs. 27,544 per year from water-rate alone. This figure has been obtained from the average actual collections under water-rate for three years *minus* the annual expenditure (recurring), viz., Rs. 17,500, the figure given by the Chief Engineer, Public Health Department, in his revised estimate for independent water-supply scheme, i.e., Rs. 45,044 *minus* Rs. 17,500=Rs. 27,544. If the collections are more favourable the amount of saving will come up to Rs. 30,000 approximately. This amount after meeting all overhead charges not only covers the amount of annual instalment of the old loan, new loan, and proposed loan as well as depreciation fund, but will have a surplus which sufficiently guarantees the repayment of the loan.

No. 46T.P.H.—18th October 1938.—In exercise of the power conferred by clauses (*a*), (*b*), (*c*) and (*m*) of section 311 of the Bengal Municipal Act, 1932 (Ben. Act XV of 1932), the Governor is pleased to make the following rules for the preparation, publication and execution of projects for water-supply, sewerage or drainage by municipal authorities in supersession of the rules published with notification No. 904P.H., dated the 3rd March 1936:—

1. *Definition.*—In these rules—

(*a*) "municipal authority" means the Commissioners of a municipality constituted under the provisions of the Bengal Municipal Act, 1932, and includes a joint committee constituted under sub-section (*1*) of section 87 of that Act.

(*b*) "Chief Engineer" means the Chief Engineer, Public Health Department.

(*c*) "Sanitary Board" means the persons for the time being appointed, either by name or by official designation, by the Provincial Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board.

2. *Preparation of sketch project.*—(*1*) Whenever a municipal authority desires to undertake a project for water-supply or sewerage, or a comprehensive scheme of surface drainage, or the improvement or extension of existing works of this description, it shall first cause to be drawn up a sketch project roughly showing its scope and estimated cost.

(*2*) Such sketch project may be drawn up—

(*a*) by the Chief Engineer, at the request of the municipal authority; or

(*b*) by any individual or firm approved by the Chief Engineer; or

(*c*) with the permission of the Chief Engineer, by the District Engineer, for whose services an application should be made to the District Board; or

(*d*) by one of the officers of the municipal authority or by an officer specially appointed by such authority for the purpose, subject in either case to the selection of such officer being approved by the Chief Engineer.

(*3*) In cases (*b*) to (*d*) referred to in sub-rule (*2*), the sketch project, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(*4*) The Chief Engineer shall, in all cases, act as adviser of the municipal authority.

3. *Submission of sketch projects, statement and application.*—(*1*) when it is desired to impose water-rate by any scheme which involves the laying of pipes or other similar apparatus, or when there is no proposal for the imposition of water-rate and when the estimated cost of any scheme, or of any larger scheme of which it forms a part, is more than Rs. 10,000, or when the estimated cost of a scheme is Rs. 10,000 or less and the financial assistance of the Provincial Government to such scheme is desired, the municipal authority shall submit the sketch project prepared under rule 2 to the Sanitary Board through the Commissioner of the Division, together with a statement wherein shall be shown the amount of the funds available to meet the capital and recurring cost of the project from current revenue or by way of loan or from any other source.

(*2*) The Sanitary Board, after considering the project, shall forward it to the Department of Public Health and Local Self-Government of the Provincial Government with such recommendations as they think fit, and, if the project relates to local areas under the control of two or more local authorities, with proposals for the distribution of the cost.

(*3*) When there is no proposal for the imposition of water-rate and when the estimated cost of a scheme is Rs. 10,000 or less and when no financial assistance from the Provincial Government is required and when the scheme does not form part of a larger scheme of which the estimated cost is more than Rs. 10,000 the administrative approval of the provincial Government shall not be necessary, but the Chief Engineer shall be consulted and the scheme, with a copy of Chief Engineer's opinion on it, shall be submitted to the Commissioner of the Division for information.

4. *Conditions precedent to obtaining administrative approval of the Provincial Government or the approval of the Commissioner to a project.*—In order to obtain the administrative approval of the Provincial Government or the approval of the Commissioner of the Division, as the case may be, to any such project, the municipal authority shall satisfy the Provincial Government or the Commissioner of the Division:—

(*1*) that the cost of maintenance of the projected work can be met by the municipal authority from municipal revenue;

(*2*) that any loan required to meet the cost of the work can be repaid, together with the interest thereon, within the period that may be specified by the Provincial Government;

(*3*) that the work can be done effectually in the manner and for the cost proposed, and

(*4*) that the work, if any, designed to be carried out through, under or over any Communication and Works Department road or land has been approved by an officer of that department not below the rank of Executive Engineer.

5. *Procedure after grant of administrative approval: preparation of detailed plans and estimates.*—(*1*) When the administrative approval of the Provincial Government has been obtained to the project in the case where such approval is necessary (but in no case before such approval, except with the previous sanction of the Local Government),

the municipal authority may arrange for the preparation of detailed plans and estimates, and for this purpose may—

(*a*) apply for the services of the Chief Engineer, or

(*b*) with the previous sanction of the Chief Engineer—

(*i*) entrust the work to an individual or firm; or

(*ii*) apply to the District Board for the services of the District Engineer; or

(*iii*) cause the plans and estimates to be prepared by one of its own officers, or by an officer specially appointed for the purpose, subject in either case to the selection of such officer being approved of by the Chief Engineer, who shall first satisfy himself that the officer is fully qualified for the work in question.

(*2*) In case (*a*) referred to in sub-rule (*1*) application shall not be made for the preparation of plans and estimates for alternative schemes, unless the municipal authority at the same time undertakes to pay for each such scheme the fees laid down in rule 32.

(*3*) In case (*b*) referred to in sub-rule (*1*), the plans and estimates, while in course of preparation, shall be subject to examination and amendment by the Chief Engineer.

(*4*) When land has to be acquired, the officer preparing the scheme shall send necessary particulars of such land to the Collector of the district and shall obtain from him an estimate of the cost of its acquisition. This estimate shall be submitted with the main scheme as a separate estimate.

6. *Submission of detailed plans and estimates for approval.*—(*1*) The detailed plans and estimates shall, on completion, be forwarded by the municipal authority in duplicate to the Sanitary Board through the Commissioner of the Division, together with the particulars required by rule 8 and a report on the state of public feeling in regard to the scheme and, if a loan is required, with an application in the prescribed form.

(*2*) If the scheme is for the improvement or extension of existing waterworks, the particulars mentioned in sub-rule (*1*) shall be accompanied by a statement showing in detail the financial position of the water-supply fund of the municipality.

(*3*) If the scheme is a drainage scheme the estimates shall be submitted in forms to be obtained from the office of the Chief Engineer.

(*4*) When the scheme has not been prepared in the office of the Chief Engineer, it shall be accompanied by full details of the calculations of the size and strength of the various works and complete information as to the prices on which the estimates have been based.

(*5*) The Sanitary Board shall submit the scheme as finally drawn up to the Department of Public Health and Local Self-Government of the Provincial Government for approval, with an expression of their opinion (*a*) on its merits and (*b*), if a loan is required, on the terms of such loan.

7. *Submission of proposals for rules regulating house-connections.*—If the scheme includes projects with the intention of allowing house-connections, the municipal authority shall, within three months of submitting the detailed plans and estimates under rule 6, submit proposals for rules under section 311 of the Act regulating house-connections, with explanations of any variation proposed from the model house-connection rules.

8. *Publication of the scheme after its approval by the Provincial Government.*—(*1*) When the scheme has been approved by the Provincial Government, it shall be published in the *Calcutta Gazette*, and locally in accordance with the provisions of section 507 of the Act, with the following particulars, namely:—

(*a*) a general description of the scheme;

(*b*) an estimate of the cost of carrying it out;

(*c*) an estimate of the cost of maintaining it;

(*d*) the source from which the cost will be met;

(*e*) the amount of the loan, if any, required for the scheme, the annual instalments by which such loan will be repayable, and the number of years required to repay it; and

(*f*) when several local authorities are concerned, the distribution of the loan between those authorities.

(*2*) Where the scheme is for providing or improving the water-supply, the following additional particulars in respect of each municipality concerned shall be also published in the manner described in sub-rule (*1*), namely:—

(*a*) the total annual charge to be incurred by reason of the water-supply and to be met by a water-rate;

(*b*) the percentage of such water-rate on the annual value of holdings;

(*c*) the average incidence of such water-rate per head of the population.

9. *Final sanction of schemes after considering objections, if any.*—After the expiry of six weeks from the date of the publication under rule 8, and after considering any objections or suggestions that may be received, the Provincial Government may either sanction or reject the scheme as published, or may refer it, with such proposals for amendment as it may think fit, to the Sanitary Board, who, after considering the scheme and proposals, shall return the scheme to the Provincial Government together with the opinion of the Board on the proposals; and the scheme and opinion so returned shall be published and disposed of by the Provincial Government in the manner provided in rule 8 and in this rule.

10. *Commencement of work.*—No work shall be commenced on the project, nor shall any agreement be entered into in respect thereof, until the detailed plans and estimates have received the final sanction of the Provincial Government under rule 9.

11. *Sanction to heavy excesses over detailed estimates.*—If at any time during the progress of the work the municipal authority has reason to anticipate that the sanctioned detailed estimate will be exceeded by more than 10 per cent., or if it shall at any time appear to the municipal authority that the sanctioned detailed scheme will require material alteration, the municipal authority shall forthwith submit to the Provincial Government for sanction a revised scheme with revised estimates and plans.

The revised estimates and plans shall be prepared—

(*a*) in the case of schemes prepared and carried out by the Municipal Engineer under rules 5(*1*)(*b*)(*iii*) and 14(*2*)(*a*), by that officer and shall be scrutinized by the Chief Engineer.

(*b*) in the case of schemes prepared and carried out by a firm of engineers of established reputation, or by an engineer specially appointed for the purpose under rule 5(*1*)(*b*)(*i*) or 5(*1*)(*b*)(*iii*) and rule 14(*2*)(*a*), by the firm of engineers or the engineer so appointed, and shall be scrutinized by the Chief Engineer.

(*c*) in the case of schemes prepared and carried out by the District Engineer under rules 5(*1*)(*b*)(*ii*) and 14(*2*)(*b*), by that officer and shall be scrutinized by the Chief Engineer.

(*d*) in all other cases, by the Chief Engineer.

12. *Taking over of complete supervision and control by Chief Engineer.*—(*1*) The Chief Engineer shall have complete supervision and control of the carrying out of all schemes of water-supply, sewerage and drainage towards which the Provincial Government make a grant amounting to Rs. 50,000 or more or to half the total cost of the scheme or more. The municipal authority shall undertake to pay the fees specified in rule 34 before work on the scheme is begun.

(*2*) In other cases the municipal authority may request the Chief Engineer to take over supervision and control of the work, and on the municipal authority undertaking to pay the fees specified in rule 34, the Chief Engineer shall, if he considers that he can do so without detriment to the public service, take over such supervision and control.

(*3*) Works, of which the complete supervision and control are taken over by the Chief Engineer under sub-rule (*1*) or sub-rule (*2*), shall be considered as contribution works and shall be carried out by the Engineering Branch of the Public Health and Local Self-Government Department under the rules regarding such works in paragraphs 210 to 214 of the Bengal Public Works Department Code (1st edition), except that the provision made in the Code for establishment, etc., will be recovered by the fees specified in rule 34 hereof, or shall be met by the municipal authority by payment of such fees as the Provincial Government may from time to time prescribe.

(*4*) In addition to the above fees the municipal authority shall bear all law charges on behalf of the Provincial Government in any suits brought by contractors or others in connection with the execution of any project under this rule:

Provided that no charge shall be payable by the municipal authority under sub-rule (*4*), if, in the opinion of the Provincial Government, the suit is due to the malfeasance or negligence of the Chief Engineer or an officer subordinate to him.

(*5*) The municipal authority shall be given an opportunity of seeing the terms of any contract for the execution of such work before it is executed. The Chief Engineer shall consider any remarks made by the municipal authority as to the terms of the contract and if he is unable to accept the remarks shall submit the matter to the Provincial Government for decision.

13. In the case of a scheme the sketch project of which has been approved by the Commissioner of the Division under rule 3(*3*) the detailed plans and estimates shall be also prepared by the municipal authority in the manner provided in rule 5 and shall on completion be submitted to the Commissioner of the Division for final sanction. No work shall be commenced on such project unless the detailed plans and estimates have received such final sanction.

14. *Conditions as to detailed engineering supervision.*—(*1*) Where the projected work is estimated to cost more than Rs. 10,000, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Provincial Government under rule 9.

(*2*) Save as otherwise expressly directed by the Provincial Government—

(*a*) the work shall be carried out under the supervision of an Engineer, either permanently employed by the municipal authority or specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the engineer having been previously submitted to the Chief Engineer, and approved by him; or

(*b*) with the previous approval of the Chief Engineer, arrangements shall be made with the District Board for the carrying out of the work under the supervision of the District Engineer and his staff; or

(*c*) the work shall be carried out under the complete supervision and control of the Chief Engineer in the manner provided in rule 12.

(*3*) In cases (*a*) and (*b*) referred to in sub-rule (*2*), the work while in progress shall be subject to inspection and control by the Chief Engineer.

15. *Report by municipal authority to the Chief Engineer in case of small schemes.*—In the case of schemes estimated to cost Rs. 10,000 or less, the municipal authority shall report, to the Chief Engineer, the agency by which the schemes will be carried out, and shall follow the instructions issued by him in the matter.

Tenders and Contracts.

16. *Procedure to be followed in case of other works.*—In the case of works carried out under clause (*a*) or clause (*b*) of rule 14(*2*), the procedure provided by rules 17 to 29 shall be followed.

17. *Preparation of drawings, specifications, forms of tender, etc.*—When requested by the municipal authority, the Chief Engineer shall, subject to the payment of the fees mentioned in rule 32, prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of schemes, which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

18. *Approval of Chief Engineer to drawings, specifications, forms of tender, etc.*—When drawings, specifications, bills of quantities, forms of tender, and other documents or plans referred to in rule 17 relating to any work are not prepared by the Chief Engineer, such drawings, specifications, bills of quantities, forms of tender and other documents or plans, shall be submitted to him for his approval in writing before tenders for the contract of such work are advertised for.

Note (i).—The terms of a contract shall be precise and definite and there shall be no ambiguity or room for misconstruction therein.

Note (ii).—When necessary, legal and financial advice shall be taken in regard to the nature and form of a contract before it is finally accepted.

Note (iii).—The standard form of a contract shall be adopted, wherever possible, and its terms shall be adequately scrutinized before it is finally accepted.

Note (iv).—Provision shall be made in contracts for safeguarding properties belonging to Government or local bodies when such properties are entrusted to a contractor.

19. *Advertisements inviting tenders.*—Every advertisement for tenders shall be published in one or more newspapers and shall briefly describe the works required to be carried out and state the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender can be obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders will be received.

20. *Approval of plans, drawings, specifications, forms of tender, etc., by the municipal authority.*—All plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the municipal authority in meeting. Whenever such authority desires to make any alteration in any one of such documents, the Chief Engineer shall be informed and his advice obtained with regard to such alteration.

21. *Submission and receipt of tenders.*—All tenders shall be submitted in sealed covers addressed to the Chairman or the Vice-Chairman of the municipal authority, who shall attend in person at the office of such authority, or at any other place to which it has been directed that tenders shall be forwarded, at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall not be considered.

22. *Opening and numbering of tenders.*—The Chairman or the Vice-Chairman of the municipal authority shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

23. *Checking and scrutiny of tenders.*—After the tenders have been opened, they shall be—

(*i*) sent to the Chief Engineer; or

(*ii*) in the case of works carried out under rule 14(*2*)(*a*) under the supervision of a Municipal Engineer approved by the Chief Engineer as being competent to advise on these questions, handed to that officer; or

(*iii*) in the case of works carried out under rule 14(*2*)(*b*) under the supervision of the District Engineer, handed to that officer, for check and scrutiny:

Provided that, in case (*ii*) or (*iii*), the Municipal Engineer or the District Engineer, as the case may be, shall, in case of difficulty or uncertainty, consult the Chief Engineer.

24. *Return of tenders after check and scrutiny.*—The Chief Engineer, the Municipal Engineer, or the District Engineer, as the case may be, shall, after checking and scrutinizing the tenders, return them to the municipal authority with his remarks and recommendations.

25. *Consideration of tenders.*—The municipal authority shall in meeting consider the tenders when checked and scrutinized under rule 24, and either accept one of them provisionally or, if the municipal authority thinks it desirable, refer the matter to the Chief Engineer for advice.

26. *Acceptance of tender.*—No tender shall be accepted which is not in order, is not fully priced out, and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. If the person making a tender makes in it after its submission any reduction or any alteration other than the correction of a palpable arithmetical error, that tender shall be out of order and shall not be considered. In cases where the lowest tender is not accepted the reasons for such non-acceptance shall be recorded, and in accepting a tender the financial status of the contractor shall be taken into consideration in addition to all other relevant matters.

27. *Discharge of tenders and advertisement for fresh tenders.*—If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of submitting tenders have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

28. *Provisional acceptance and submission of tenders to the Chief Engineer.*—After a tender has been provisionally accepted, it shall be submitted to the Chief Engineer, for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the municipal authority:

Provided that, in case of a difference of opinion between the municipal authority and the Chief Engineer, in regard to the acceptance of a particular tender, the matter shall, if the municipal authority so desires, be referred to the Chief Engineer, Department of Communication and Works, Communication and Buildings Branch, Bengal, whose decision shall be final and binding on all parties.

29. *Placing and acceptance of contracts.*—Whenever practicable, contracts shall be placed only after tenders have been openly invited. Even in cases where a formal written contract is not made, no orders for supplies shall be placed without a written agreement as to the price of the articles supplied. No contract involving an uncertain and indefinite liability, or containing any condition of an unusual nature, shall be accepted without the previous approval of the municipal authority at a meeting. The terms of the contract, once accepted, shall not be materially varied without the previous consent of such authority.

30. *Bengal Public Works Department Code to apply to certain works.*—Works carried out under the complete supervision or control of the Chief Engineer under rule 14(*2*)(*c*) shall be governed *mutatis mutandis* by the rules contained in paragraphs 175 to 180 of the Bengal Public Works Department Code (1st edition), and the Chief Engineer shall have the powers of a Superintending Engineer, Department of Communication and Works, as defined in Government orders Nos. 126P.H. and 777P.H., dated the 14th January 1931 and 1st April 1932, respectively.

31. *Examination of contracts by audit authorities.*—The audit authorities shall have power to examine contracts and to report to the Provincial Government any cases where competitive tenders have not been called for, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

Fees.

32. *Fees.*—For the services of the Chief Engineer specified in column 1 of the following table, the fees shown opposite in column 2 shall be payable by the municipal authority:—

Nature of work.	Fees.
1	2
(*a*) Preparation of detailed estimates and drawings for projects and schemes.	2 per cent. on the estimated cost of the works.
(*b*) Preparation of contract, drawings, specifications and forms of tender.	2 per cent. on the estimated cost of the works.
(*c*) Examination and check of detailed estimates and drawings for projects and schemes prepared by a different agency.	½ per cent. on the first Rs. 20,000 of the estimated cost and ¼ per cent. on the balance of the estimated cost of the works.

Provided that when the Chief Engineer prepares both (*a*) detailed estimates and drawings and (*b*) contract drawings, specifications and forms of tender in respect of the same works, an inclusive fee of 3 per cent. on the estimated cost of such works shall be payable.

Note 1.—In calculating the fees the cost of survey, land acquisition and supervision shall be excluded from the estimated cost.

Note 2.—These fees shall be included in the estimates and recovered by debit to the works as a first charge on the scheme.

Note 3.—The municipal authority shall pay these fees in cash in accordance with the procedure laid down in article 426 of the Audit Code, if it abandons the detailed scheme at any time, or if, after budget provision has been made for the purpose, it is unable to commence the work within six months or such longer period as the Provincial Government may be pleased to allow of the final sanction of the scheme.

Note 4.—Under rule 5 fees are to be paid for the preparation of alternative plans and estimates for which application is made by the municipal authority: but revision by the Chief Engineer on his own initiative of plans and estimates previously prepared by him with a view to effect economy or improvements does not amount to the preparation of an alternative scheme for the purpose of this rule.

33. *No charge for services of the Chief Engineer, or his assistants for preparation of sketch project.*—When the preparation of a sketch project is undertaken or supervised by the Chief Engineer under rule 2, no charge shall be made for his services or for those of his assistants, or for the services of Government surveyors, draftsmen and tracers engaged in such work, and drawing materials and instruments required for such work shall be provided at Government expense:

Provided that the municipal authority shall render all reasonable assistance on the spot in supplying survey coolies and survey pegs and in fixing bench-marks, etc., and shall pay the actual cost of the same, and shall also, in each case, provide a suitable office properly furnished for the use of the Government surveyors and draftsmen.

34. *Fees for supervision and control of works under rule 12.*—(*1*) The fee payable for the supervision and control of works by the Chief Engineer under rule 12 shall be 8 per cent. on the actual cost of the work.

(*2*) The percentage prescribed in sub-rule (*1*) shall be debited to the work every month and shall be calculated on the total expenditure on the work for the month, no item of expenditure recorded in the accounts being exempt from the percentage charges.

Note.—The expenditure on land acquisition shall not be included in the calculation referred to in sub-rule (*2*).

(*b*) The estimated capital cost of the scheme is Rs. 32,000.

(*c*) The extra cost of maintenance over the existing cost will be Rs. 1,725 per annum per lakh of gallons of increase in supply per day over the present daily supply.

(*d*) The entire capital cost of Rs. 32,000 will be met from a loan to be taken from Government.

(*e*) The loan of Rs. 32,000 will be repaid with interest by 40 half-yearly instalments of Rs. 1,144-4-8 each.

2. (*a*) The total annual charge to be incurred by reason of water-supply and to be met by a water-rate will be Rs. 51,366 for the full supply of 10 lakh gallons per day.

(*b*) The percentage of such water-rate on the annual value of holdings is 7½ per cent.

(*c*) The average incidence of such water-rate per head of the population is Rs. 1·31.

2. The scheme will be taken into consideration on or after the 25th November 1938, and any objection or suggestion with regard thereto which may be received by the undersigned through the District Magistrate and the Divisional Commissioner before that date will be duly considered.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 27th September 1938.

Second Forecast of the Cotton Crops of Bengal, 1938-39.

(*Note.*—On an average of the five years ending 1936-37, the area under the cotton crops in Bengal has represented some 0·3 per cent. of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—Since the issue of the first forecast in August last, the weather has been generally favourable for the growth of the early crop. The present outlook is reported to be promising on the whole.

Area sown.—The area sown is reported to be 87,379 acres this year as against 93,583 acres (revised) in the corresponding forecast of last year.

M. Carbery,
Director of Agriculture, Bengal.

Temporary regulations for the prevention and control of cholera.

1. In these regulations, unless there is anything repugnant in the subject or context:—

(*a*) "Health Officer" means the Health Officer of the municipality;

Notices.

3. If in any case the Health Officer or a Sanitary Inspector considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the Health Officer or a Sanitary Inspector has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the Health Officer or a Sanitary Inspector shall be entitled to carry out the measure.

Costs and compensation.

5. Provided that where the conditions, which led the Health Officer or a Sanitary Inspector to pass such an order, are not attributable to any act or default of the persons in possession of the property, the municipality may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(*2*) The municipality may recover all expenses incurred by the Health Officer or a Sanitary Inspector in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The municipality shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations, if he has failed to carry out an order issued under these regulations within the time specified in the order and to the satisfaction of the Health Officer or a Sanitary Inspector.

He shall not direct the patient to be removed from the house unless it is in his opinion impossible to make proper arrangements for his isolation therein.

12. The Health Officer or a Sanitary Inspector may order that any person, who has in his opinion been exposed to infection from cholera, shall take such drugs in such quantities as may be specified by the Health Officer or a Sanitary Inspector or shall submit himself to anti-cholera inoculation within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 11 without the permission of the Health Officer or a Sanitary Inspector.

14. The municipality shall provide free of charge suitable places, with necessary attendants, medicine, diet and other necessaries for persons isolated under regulation 11: Provided that a private individual may provide places certified by the Health Officer or a Sanitary Inspector as being fit for the purpose of such isolation.

15. No person, who is or has been suffering from cholera, shall leave the place where he has been staying until he has received from the Health Officer or a Sanitary Inspector written permission to do so.

16. The Health Officer or a Sanitary Inspector may require any person to allow to be carried out by such agency and within such time as may be specified in the order, such measures for the disinfection or evacuation of any premises in the occupation of such person or for the disinfection or destruction of any of his personal effects, as the said officer or inspector may consider necessary.

19A. No person shall expose in any street, shop, bazar or any public place any clothing, bedding or other article which has been in contact with a patient or shall cause or suffer such articles to be carried in any public conveyance, but nothing in this regulation shall apply to a person who transmits with proper precautions against spreading the disease any such article for the purpose of having the same disinfected.

(*2*) The Health Officer or a Sanitary Inspector may require such owner or occupier to keep closed during such a period as shall be specified in the order any well, tank, pool or other sources of water-supply closed under paragraph (*1*) of this regulation.

29. The Health Officer or a Sanitary Inspector may require the owner or occupier of any land to clear and remove, within the period specified in the order, any vegetation upon such land the existence of which in the opinion of the said officer or inspector conduces to the committing of nuisances upon such land.

30. The Health Officer or a Sanitary Inspector may issue general orders that by a specified date certain sanitary precautions of a simple nature, such as lime-washing of houses, clearing of latrines or the removal of filth or rubbish shall be carried out to his satisfaction.

Temporary regulations for the prevention and control of cholera.

1. In these regulations, unless there is anything repugnant in the subject or context:—

Notices.

3. If in any case the Health Officer or a Sanitary Inspector considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the Health Officer or a Sanitary Inspector has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the Health Officer or a Sanitary Inspector shall be entitled to carry out the measure.

Costs and compensation.

5. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the municipality except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by that person:

Provided that where the conditions, which led the Health Officer or a Sanitary Inspector to pass such an order, are not attributable to any act or default of the persons in possession of the property, the municipality may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The municipality may recover all expenses incurred by the Health Officer or a Sanitary Inspector in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The municipality shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

The latter officer shall before signing the certificate verify the cash balance and see that it agrees with the balance as shown in the memorandum in the Cashier's cash book for the same day.

Remittance into the Bank.

83. All money received on account of the Wakf Fund shall be remitted to the Bank accompanied by a pay-in-slip on all working days of the week and shall on no account be appropriated towards expenditure.

84. (*a*) When a remittance is to be made to the Bank, (*i*) all receipts up to the time of remittance shall be entered in the cash book (Form 26), (*ii*) all money columns shall be totalled and the cross total of those columns shall be agreed with that of column 11, (*iii*) the total amount of column 11 shall be entered in column 12 and remitted to the Bank in pay-in-slip forms, (*iv*) the number and date of the pay-in-slips shall be noted against each remittance. The Commissioner shall check and initial against the total of the remittance in column 12.

(*b*) A red line shall be drawn across the book below the totals after each remittance. All amounts received after the remittance is made

shall be entered below the line mentioned above. The date in column 1 of the cash book shall be the actual date of receipt and not of remittance.

Transactions with the Bank.

85. Pay-in-slip Books are supplied by the Bank for the payment of money into it.

Bank's monthly statement of deposits and withdrawals.

86. For sums paid into and withdrawn from the Bank a monthly statement of accounts showing the daily records of transactions in the Bank is issued by the Bank every month. These statements shall be filed serially and chronologically in book form.

Check of the Cashier's Cash Book by the executive.

87. (*1*) The Commissioner shall once at least in every month examine (*i*) the Cashier's cash book together with the Bank's statement of accounts, so as to satisfy himself that all money received has duly been remitted to the Bank without delay and that (*ii*) the Cashier does not without sufficient reasons retain in hand sums of money in excess of the security which he may have given, and that (*iii*) he always remits to the Bank the whole and not part of the day's receipts. He shall initial the cash book in token of having made this examination.

NOTE.—This duty shall not be delegated by the Commissioner to any other officer.

(*2*) He shall further examine once a month the Cashier's and the Accountant's cash book with all the subsidiary forms and registers with a view to testing whether all sums received are actually brought to account promptly.

(*3*) The Commissioner shall exercise the same vigilance in respect of all expenditure out of the Wakf Fund as a person of ordinary prudence would exercise in spending his own money.

Payment Orders and Payment of Claims.

88. Every bill or other claim for payment shall be presented in the first instance to the Accountant, who shall check and examine it as regards arithmetical accuracy, propriety of the claim and its admissibility with reference to sanction, order book or other documents, and if it be found to be correct and in order, he shall initial it and submit the same for orders to the Commissioner. Wherever permissible, pies involved in the total of the passed bill shall be rounded off to the nearest anna—items below six pies being omitted and six pies and above, treated as one anna. If payment of the bill so presented is to be made, a payment order shall be endorsed on the documents, *i.e.*, on the bill presented by the person who prefers the claim.

The payment order shall run as follows:—

"Pay (Rs.) rupees only", the amount being written in words as well as in figures and the order shall be signed by the Commissioner if the payment is found admissible by him.

89. Before passing a cheque the Commissioner shall satisfy himself that the amount is available against the balance of the Wakf Fund or a loan as the case may be, to which the amount is debitable. A reference to the Appropriation Register maintained under rule 78 will show the amount of unspent balance of the loan. Deducting this sum from the balance of the General Cash Book on any day (the receipts and expenditure being roughly totalled for the purpose of working out the figure), the available balance of the Wakf Fund proper will be obtained. He shall at the same time satisfy himself that the payment will not cause any excess over the provision made in the budget estimates under the head concerned.

90. (*a*) If the bill is to be paid out of the imprest, the Commissioner shall sign the pay order on the bill and make it over to the Cashier for payment. The Cashier shall after payment stamp the vouchers with the words "Paid in cash", in conspicuous type. This shall be attached as a sub-voucher to the next contingent bill (Form 16).

(*b*) If the Bill is to be paid by cheque, it shall be made over to the Accountant. The cheque shall be written out by the Accountant and the bills stamped "Paid by cheque No. , dated " in conspicuous type. Both the bills and the cheque shall then be placed before the Commissioner who shall sign the cheque and initial (with date) the "paid" endorsement on the bill in token of having signed the cheque. The amount of the cheque shall be entered in the cash book as soon as the cheque is signed.

91. Every payment made either in cash or by cheque shall be covered by a receipt stamped, if necessary, from the person to whom the money is due. If the payment is made to another person duly authorised by the payee to receive payment on his behalf, the signatures of both are necessary. Receipts signed by any other person or by an employee of the Board are invalid.

92. (*a*) When payment is made to illiterate persons, their left thumb impression shall be taken and attested by a witness in addition to the paying officer.

(*b*) When the payee signs the bill in vernacular, the paying officer shall require the payee to acknowledge the amount in the same vernacular.

93. (*i*) All bills that have been paid shall be numbered consecutively for the year in order of payment and shall be posted in a "guard book".

(*ii*) Imprest bills that have been together with the sub-vouchers shall be filed in a separate guard book, a memorandum being kept in its place in the general guard book.

Bill Register.

94. (*a*) All bills received for payment shall be entered in the Bill Register (Form 27). As soon as a payment on account of the bill is made, the fact shall be noted in the appropriate column of the register. The total unpaid amount at the end of the year shall be worked out and the outstanding amount carried over to the register for the next year.

(*b*) The Bill Register shall be submitted for review to the Commissioner once a month.

Cash Book.

95. The cash book shall be kept in English in Form 28 by the Accountant.

Posting of the cash book.

96. (*a*) The Accountant shall compare the receipted pay-in-slips and the Cashier's cash book to ensure that all remittances have been duly brought to account in the Bank and shall then write up the receipt side of his cash book from the chalan and the Cashier's cash book. In writing up his cash book the Accountant shall transcribe the totals only under the various account headings in the Cashier's cash book into his cash book, but at the same time he shall prove the compilation of the account and test the accuracy of the amount and the classification of the items forming the totals by referring to the forms and registers in which the receipts are given.

(*b*) The date of receipt to be shown in the Accountant's cash book shall be the date on which the chalan is received by the Bank as shown by the stamp and initials of the officers of the Bank thereon.

(*c*) The payment side of the cash book shall be posted from the details of the vouchers and of the cheques drawn.

Closing of the Cash Book.

97. The cash book shall be balanced on the last working day of every month and signed by the Commissioner in token of the correctness of every entry made therein. The balance brought out shall be stated both in words and figures, and shall within three days of the close of the month be agreed with the balance shown in the monthly statement of accounts received from the Bank, thus:—

			Rs. a. p.
Balance as per cash book			
Add cheques drawn but not yet cashed			
	Rs. a. p.		
Cheque No.			
Cheque No.			
		Total ..	
Deduct amounts credited in the cash book but not appearing in the Bank's monthly statement of deposits and withdrawals			
Pay-in-slip No.	Date	Rs. a. p.	
....	....	.....	
....	....	.....	
etc.	etc.		
Balance as per monthly statement of accounts of the Bank			

NOTE.—When a cheque has been cancelled it will not be entered into the list of cheques drawn but not cashed.

Cheques.

98. Cheque Books will be provided by the Bank. The drawing officer shall keep the cheque book under lock and key in his personal custody and when relieved he shall take a receipt for the correct number of cheques made over to the relieving officer, a specimen of the latter's signature shall at the same time be forwarded to the Bank.

99. On receipt of the Cheque Book from the Bank the officer to whom the duty of signing cheques is allotted, shall count the cheques and shall record the number on the back of the Cheque Book over his initial thus:—

"This Cheque Book contains.....forms."

100. (*a*) The Cheque Book in use may be made over to the Accountant whenever required, but it shall be returned before the office is closed for the day and shall on no account be left in the entire charge of any subordinate.

(*b*) The officer in whose custody it is to remain shall satisfy himself periodically that all unused cheques are in the book and that none has been surreptitiously extracted.

101. No cheques shall ordinarily be signed unless required for immediate delivery to the person to whom the money is to be paid. The practice of retaining signed cheques in the office shall not be permitted.

102. Every cheque shall be drawn in English in favour of the person to whom the money is actually to be paid and no cheque shall be drawn in favour of one person for payment to another.

The sole exceptions are—

(*a*) in the case of a cheque issued for a sum of money distributable as pay or wages among the staff of the Board the cheque shall be drawn in favour of the Commissioner who will endorse the cheque by name to the person by whom the actual distribution is to be carried out and at the same time attest the corresponding entry in the register of disbursement of cash drawn on cheques in favour of the Commissioner (Form 29).

(*b*) (*i*) In the case of a cheque for a sum of money due to a person residing outside Calcutta the cheque shall be drawn in favour of the Postmaster, if it is accepted by him, and shall be sent to him with the money orders included in the cheque; if not, it shall be drawn in favour of the Commissioner who will have it cashed and the money sent to the Postmaster. The Commissioner shall check the money order carbon receipts with the bills on the same day or on the following day.

(*ii*) In case of deductions made from the pay bill on account of security deposits of employees, a cheque for all such deductions made in a month shall be similarly drawn in favour of the Postmaster for deposit in the respective Savings Bank account of each depositor.

(c) In case of payment of sums due to Government the cheques shall be payable to the officer in charge of the department concerned such as the Income-tax Department. In other cases, the cheque shall be drawn in favour of the Commissioner who shall be responsible for the due credit of the sum to Government.

103. The amount of every cheque drawn shall be written in words as well as in figures, both on the cheque itself and on the counterfoil which shall be initialled by the person who signs the cheque. The amount of the cheque should be so recorded as to render any alterations, interpolations, insertions quite easily noticeable: the word "only" shall be added after the amount written in words where the amount does not contain annas or annas and pies.

104. All cheques drawn in favour of the Commissioner shall be entered by the Cashier in the register of disbursement of cash drawn in cheques in favour of the Commissioner (Form 29).

Cancellation of cheques.

105. When a signed cheque is cancelled it shall be stamped or enfaced "cancelled" by the drawer of the cheque. The fact of cancellation shall be noted in red ink under the initials of the drawer of the cheque upon the counterfoil and also across the endorsement which has been enfaced upon the vouchers.

NOTE.—The cancelled cheque shall be destroyed by the local auditor as soon as the accounts for the month in which the cheque was drawn have been audited.

Correction of the cash book and Abstract Register when cheques are cancelled.

106 (a) If the cheque is cancelled before the cash transactions of the month in which it was issued have been totalled the entry in the cash book and also in the Abstract Register (Form 31) shall be stuck out in red ink under the initials of the Commissioner.

(b) If, however, the Abstract Register has been totalled, the amount of the cheque shall be credited in the cash book as a miscellaneous receipt, and if the correction is made in the year in which the cheque was issued the amount shall be noted against the head "Deduct entries" in the adjustment register (Form No. 32) under that head and the head of expenditure to which it was originally charged.

107. No fresh cheques shall be issued, in place of a lapsed cheque. A lapsed cheque shall simply be re-dated and attested by the Commissioner. A note of the fact of re-dating shall be entered in the cash book against the original transaction and upon the counterfoil of the cheque itself.

NOTE.—Cheques are current for three months only; after the expiration of that period payment will be refused by the Bank and the person in whose favour the cheque was drawn will therefore have to bring it back to be re-dated.

Procedure when a cheque is lost.

108 (*a*) When a cheque is reported as lost during the period of its currency, the Commissioner shall forthwith communicate the loss to the Bank and obtain certificate from the Bank that its payment has been stopped.

(*b*) On receipt from the Bank of the certificate properly signed, a new cheque can be drawn in lieu of it and the fact of the loss and the number and date of the new cheque will be recorded on the counterfoil of the lost cheque, and the number and the date of the old cheque will be recorded on the counterfoil of the new chqeue. The fact of the new cheque having been issued will be entered on the date of issue in red ink parenthetically in the cash book but not in the column for payment. A note will also be made against the original entry in the cash book.

Abstract Register of Receipts and Expenditure.

109. All the entries on the receipt side of the cash book (Form 28) shall be posted by the Accountant one by one direct from the cash book into the Abstract Register of Receipts (Form 30) and all entries on the payment side of the cash book shall be similarly posted into the Abstract Register of Expenditure (Form 31).

110. The Abstract Registers shall be posted as often as may be convenient, but in no case later than ten days after the close of the month to which the account relates.

111. The columns of the Abstract Register shall be totalled every month and the sum of the totals of all the columns must necessarily be equal to, and shall be compared by the Commissioner with, the monthly totals of the receipts and expenditure shown in the cash book. He shall initial the Abstract Registers in token of having made this comparison.

112. The adjustments in the Abstract Registers shall represent the totals in the Register of Adjustments prescribed in rule 113.

Adjustments.

113. For the record of transactions other than cash, a register of adjustments shall be opened in Form 32.

114. The chief adjustments are—

(*1*) Rectification of errors in classification.

(*2*) The adjustment of a bill against an advance or of a receipt against a deposit.

(*3*) Adjustment due to refunds of income or recoveries of expenditure.

115. The methods of adjustment are as follows:—

(*1*) Errors in classification are to be adjusted by deducting the amount wrongly charged from the head to which it was originally charged and adding to the head to which it belongs. The amount shall be placed against "deduct

entries" and "add entires" in the adjustment register under the respective heads of the receipt side if the misclassification relates to a receipt or under the respective heads of the expenditure side if the misclassification relates to expenditure.

(2) The adjustment of charges against an advance shall be recorded in the adjustment register by entering the amount of the charge in the expenditure side of the register under the head to which the charge is to be debited and also by entering the same in the receipt side under the head "Advances recovered".

When a receipt is adjusted against a deposit, the adjustment shall be recorded in the Register of Adjustment by entering the amount of deposit in the expenditure side of the register under the head "Deposits refunded" and also by entering the same in the receipt side under the head to which the amount would fall. All the entries shall be made against "add entries" of both the sides of the Adjustment Register.

The adjustment of the advances and deposits shall also be recorded in the individual account of the Advance or the Deposit Ledger in the appropriate columns.

(3) The adjustment due to refunds of income or recoveries of expenditure shall be made only when the income was originally received or the expenditure incurred in the same year in which the refund or recovery is made. When income is refunded, the refund shall be charged to the major head of expenditure corresponding to the major head of receipts to which it was originally credited, or if there is no such head, to "Miscellaneous". The amount shall then be deducted in the Adjustment Register from both the head of receipt to which it was originally credited and the head of expenditure to which the refund was charged.

Similarly, when expenditure is recovered the amount shall be credited to the major head of receipts corresponding to the major head of the expenditure to which it was originally charged or if there be no such head, to "Miscellaneous". The amount shall then be deducted from the Adjustment Register from both the heads of expenditure to which it was originally charged and the head of receipt to which the recovery is credited.

NOTES.—(1) Adjustment affecting the advance and the deposit heads shall be made even after the close of the year so long as the accounts therefor have not been finally closed.

(2) The record of adjustment relating to "deduct entries" both in the Adjustment Registor or in the Abstract Register shall always be written in red ink.

(3) No adjustment will, however, be necessary in respect of recovery of expenditure incurred under sections 39 and 75 of the Act.

Quarterly and Annual Account.

116. At the close of every month the totals under the various heads of account recorded in the Abstract Registers (Forms 30 and 31)

shall be entered by the Accountant in the Registers of Quarterly and Annual Accounts of Receipts and Expenditure in Forms 33 and 34 against the corresponding heads for respective months.

117. If it is desired to show the expenditure in greater detail than according to the prescribed budget heads, additional detailed heads may be inserted in the Abstract Registers and the Quarterly and Annual Accounts of Expenditure. The particulars of the charges to be posted under those heads can be obtained from the cash book or vouchers.

Preparation of Annual Account.

118 (*a*) An account showing the receipts and expenditure during the year, duly balanced, shall be prepared by the Accountant in Form 35 immediately after the close of each year and not later than the 15th May following. The account shall be reviewed and signed by the Commissioner and placed before the Board for consideration and approval by the 15th June following.

(*b*) A copy of this account shall be sent not later than the 30th June following to the Government.

Office Order Book.

119. An Office Order Book shall be kept by the Commissioner in which all appointments, promotions, leave, suspensions, fines and office arrangements and orders generally shall be noted. The Commissioner shall see that this Order Book is kept in a correct and complete manner.

Establishment Check Register.

120. The whole establishment of the Board shall be recorded in the Establishment Check Register (Form 36) in which every appointment as made shall be entered. The original scale as well as all subsequent changes shall be authenticated by the Commissioner with a quotation of the number and date of sanction in support.

121. Details of every establishment bill after it is checked by the Accountant shall be posted into the Establishment Check Register. Pay shall be recorded under the month for which it is due and not under that in which it is disbursed.

122. Temporary establishment shall be shown separately in the establishment register and not mixed up with the permanent establishment, the period of sanction being specified. Lines shall be drawn across the columns of the months previous or subsequent to such period, so as to prevent admissibility by oversight of pay for a period in excess of sanction.

Other recurring charges.

123. When the Commissioner incurs recurring charges (other than for repayment of loans) on account of rents, electrical charges, etc., payments on account thereof shall be recorded and checked in the same manner as establishment charges. The Establishment Check Register shall be used for the purpose, separate pages being opened therein for these charges.

124. The payment of fees and travelling allowances to the members shall also be watched through this register, necessary modifications of the columns thereof may be made as indicated below:—

Name of member.	Residence.	Date of meeting.						Date of meeting, etc., etc.
		Voucher No.	Date.	Amount of travelling allowance.	Voucher No.	Date.	Amount of allowance.	

Destruction of records.

125. Vouchers, registers and other accounts and forms prescribed for the use of the Board shall not be classified for destruction or destroyed otherwise than in accordance with the Appendix to these rules.

126. The Commissioner shall give the necessary orders for destruction after personal inspection. The registers, vouchers and other documents which have been ordered to be destroyed shall be entered in detail in a register and attested by the Commissioner after verification.

CHAPTER VIII.

Legal Proceedings.

127. All suits or certificates filed on behalf of or against the Commissioner shall be entered in a register in Form 37 and costs incurred in coducting the suits or certificate cases and in executing the decrees or certificates shall be noted in the register against the respective suit or the certificate case.

NOTE.—The certificate cases filed should be noted in a separate part of the register.

128. The suits or certificate cases pending at the end of the year shall be taken over to the next year's register written in red ink. The total costs incurred and other details shall also be noted from the previous year's register.

By order of the Governor,

T. M. Dow,

Secy. to the Govt. of Bengal.

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 29th August, 1938:—

L. A. BILL No. 19 OF 1938.

A Bill further to amend the Destructive Insects and Pests Act, 1914.

WHEREAS it is expedient further to amend the Destructive Insects and Pests Act, 1914, for the purpose hereinafter appearing; It is hereby enacted as follows:— II of 1914.

Short title.

1. This Act may be called the Destructive Insects and Pests (Second Amendment) Act, 1938.

Amendment of section 2, Act II of 1914.

2. In section 2 of the Destructive Insects and Pests Act, 1914,— II of 1914.

(*a*) at the end of clause (*b*) the word "and" shall be omitted;

(*b*) at the end of clause (*c*) the word "and" shall be added; and

(*c*) after clause (*c*) the following clause shall be added, namely:—

"(*d*) a reference to British India shall be construed as a reference to British India and Berar."

STATEMENT OF OBJECTS AND REASONS.

The Destructive Insects and Pests Act, 1914 (Act II of 1914), was not made applicable to Berar under the Indian (Foreign Jurisdiction) Order in Council, 1902. By the Destructive Insects and Pests (Amendment) Act, 1938 (Act VI of 1938), sections 4A to 4D and section 5A, conferring power on the Central Government to regulate or prohibit transport from province to province of insects or articles likely to cause infection to crops, were added to the Act. In order that these new provisions may, if necessary, be used to control the transport to or from Berar of insects or articles likely to cause infection and since uniformity in this matter is obviously desirable, it is proposed that the whole Act should now be made applicable to Berar by legislation for this purpose.

1. In Explanation I of the section delete the sentence "and all feeling of enmity".

2. In Explanation II delete the whole sentence after the words "lawful means" and before the words "do not.....".

3. In Explanation III delete the whole sentence after the word "Government" and before the words "do not....."

Amendment of section 153A.

4. In the section between the word "otherwise" and the word "promotes" add the word "intentionally".

5. In the Explanation of the section delete the words "without malicious intention and" and add at the end of the Explanation "or to advance the cause of one's own community or class or to criticise the action of other community or class which is behaving in an antagonistic manner towards any other community or class."

STATEMENT OF OBJECTS AND REASONS.

Under the Government of India Act of 1935 the form of Government has considerably changed and provincial autonomy has been granted and consequently the administration of provinces has come into the hands of such bodies which are either predominantly Hindu or Muslim and at least one of such bodies has the object of abolishing zamindari system altogether or reduce it to the status of an institution of tax collectors. The feeling between Hindus and Muslims is so bitter and the mutual mistrust is so high that one community does not expect fair play from the other.

The Congress, which is for all intent and purposes a Hindu body and is administering good many provinces, has also some such ideals as are against the interest of certain classes in certain provinces. Under the present condition of this country it is very dangerous and unjust to give such a weapon as sections 124A and 153A in their present form in the hands of any community or class in power which may be used as a means of oppression of other community or classes, and therefore it is necessary to amend the two sections in such a manner as to avoid any danger of misuse with a view to oppress others.

ALLAHABAD;
The 17th June, 1938.

Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 13th September, 1938:—

C. OF S. BILL No. 8 OF 1938.

A Bill to amend certain provisions of the Criminal Procedure Code (Act 5 of 1898, as amended in 1923).

1. Amendment of section 161.

Add following at the end of clause (*1*): "and all the material portion of such statement shall be recorded in the special diary".

2. Amendment of section 144.

In clause (*1*) after the words "any other magistrate" add "of first class not being a Honorary Magistrate" and delete "not being a magistrate of the 3rd class".

Add at the end of the section the following proviso:—

"Provided that no order under this section shall be passed against any one, who is acting under a civil court decree according to the directions contained therein, or is doing an act, which is not illegal, unless the act is done in such a manner as is likely to cause an apprehension of breach of peace; in which case the magistrate may impose suitable conditions for performance of the said act."

3. Amendment of section 207.

After the words "in the opinion of the magistrate" add "is a case in which adequate punishment cannot be inflicted by him or in a cross case of another case, which has been committed to the court of session or the High Court, and in the opinion of the magistrate is of such a nature that it ought to be tried with that case".

4. Add the following new section as section 214:—

"In a case exclusively triable by the court of session or the High Court, if the magistrate, after taking some evidence, is of opinion that a *prima facie* case has been made out, he may frame a charge and may commit the accused to the court of session or the High Court as the case may be without taking further evidence for the prosecution or the defence, or if all the accused apply to the magistrate to commit the case without taking any evidence, the magistrate may forthwith frame a charge and commit the case to the court of session or the High Court as the case may be. In such cases the accused will be given a list of all the witnesses and the documents which the prosecution intends to produce at the trial before he is called upon to furnish a list of defence witneses and on the application of the accused copies of the statement of prosecution witnesses examined by the police or the magistrate will be given to him free of charge and the accused will also be entitled to inspect free of charge all the documents intended to be produced by the prosecution at the trial."

5. Amendment of section 268.

Substitute the following in place of the existing section:—"Trials before a court of session shall be by jury only in cases to which section 269 applies".

6. Amendment of section 269.

Omit the sentence "with the aid of jurors as assessors" in sub-clause (*3*).

7. Amendment of sections 284, 284A, 285, 285A, 286, 293, 294, 295 and 309.

Omit sections 284, 284A, 285 and clause (*1*) of section 309.

Omit "or section 284A" from section 285A. Omit "or assessors" in sections 286, 293, 294 and 295.

STATEMENT OF OBJECTS AND REASONS.

The police has changed its method of recording the statements of witnesses in such a way that the object of the amendment of section 162 cannot be achieved. Moreover, in view of the proposed addition of section 214 the amendment of section 161 is necessary.

Section 144 is much too wide and in spite of its amendment it has been misused causing great hardship and injustice to people

Section 207 has been misunderstood in many cases and such cases are committed to the court of session which should never go to a court which has more important work to do.

In good many cases unnecessary delay and expense can be avoided by adding the section 214 as proposed and will do no harm to the accused or any one concerned.

The trial by the aid of assessors should altogether be stopped. The majority of assessors take no interest in the trial and the court usually attaches no importance to their opinion. It is a sheer waste of public time and money.

SYED MOHAMED HUSAIN.

The 17th June, 1938.

J. D. ANDERSON,

Secy. to the Govt. of India.

The Governor General in his discretion has been pleased to accord the sanction required by clause (*e*) of sub-section (1) of section 108 of the Government of India Act, 1935.

GOVERNMENT OF INDIA.

Legislative Department.

The following Bill was introduced in the Council of State on the 15th September, 1938:—

C. OF S. BILL No. 9 OF 1938.

A Bill further to amend the Code of Civil Procedure, 1908, for certain purposes.

WHEREAS it is expedient further to amend the Code of Civil Procedure, 1908.

1. This Act may be called the Civil Procedure Amendment Act, 1938.

2. In section 104 of the said Act, the following sub-paragraphs be added to sub-section (*1*) thereof:—

(*j*) an order made without jurisdiction or which a Court was incompetent to make;

(*k*) an order affecting, determining or concluding any right or liability of any of the parties to the suit including their representatives in interest.

STATEMENT OF OBJECTS AND REASONS.

Whereas doubts, difficulties and confusion have arisen relating to the maintainability of an appeal from an "Order" under the Letters Patent of the various High Courts in India on account of numerous apparently conflicting decisions.

The word "Judgment" used in the Letters Patent of the High Courts is responsible for such conflicting decisions.

It has become necessary to set at rest such diversity of judicial opinion prevailing in various High Courts in India and the aim of this Bill is to remove such diversity so far as practicable.

The proposed amendment in sub-section (*j*) has been made on the basis of the observation of the Judicial Committee reported in I. L. R. 9 Calcutta 482, *viz.*, "they are unable to agree with the Chief Justice that if a Judge of a High Court makes an order on a misapprehension of the extent of his jurisdiction, the High Court have no power, by appeal or otherwise, in setting right such a miscarriage of justice" per Sir Robert Collier. One of the High Courts has lately doubted whether the observation of the Judicial Committee still applies as appeals from orders are now solely governed by the Civil Procedure Code.

The words in the same sub-clause, *viz.*, "which a Court was incompetent to make" have been taken literally from the decision of the Judicial Committee reported in 30 C. W. N. 459 and 462 in order to emphasise the same position and to bring into harmony the position in respect of appeals from orders to the High Court with appeals to His Majesty in Council, there being slight difference between the wordings of the two clauses of the Letters Patent.

The other provision, *viz.*, sub-clause (*k*) of this Bill, has been adopted with a view to give legislative sanction to an old Calcutta decision which has been followed ever since 1872 by the majority of the High Courts in India until some recent decisions to the contrary.

SUSIL KUMAR ROY CHOWDHURY.

J. D. ANDERSON,

Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 20th September, 1938:—

L. A. BILL No. 23 OF 1938.

A Bill to give a right to divorce to Hindu Women under certain circumstances.

WHEREAS it is expedient to give a right to divorce to Hindu women under certain circumstances; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Hindu Women's Right to Divorce Act, 193 .

(*2*) It shall apply to the whole of British India.

(*3*) It shall come into force on

Right of divorce.

2. Notwithstanding any custom or law to the contrary a married Hindu woman shall be entitled to claim a divorce from her husband under the following conditions, namely:—

(*i*) If her husband acquires impotency which is incurable any time after the marriage; or

(*ii*) If her husband changes his religion; or

(*iii*) If her husband married another woman while the first marriage is in force; or

(*iv*) If her husband has deserted her for a continuous period of three years.

STATEMENT OF OBJECTS AND REASONS.

Cases are occurring frequently in India in which a married Hindu woman's life is made unbearable under circumstances brought about by her husband. The Bill aims at removing some of these, recognising that a Hindu wife has a human personality.

RESOLUTION—No. 22716L.R.

Calcutta, the 5th November 1938.

In pursuance of the announcement made in resolution No. 6414L.R., dated the 2nd April 1938, published in an extraordinary issue of the *Calcutta Gazette* of that date, in regard to the decision of the Government of Bengal to appoint a Commission to enquire into the existing land revenue system of Bengal, the Governor is pleased formally to constitute the said Commission composed of the following personnel:—

Chairman.

Sir Francis Floud, K.C.B., K.C.M.G.

Members.

Sir Bijay Chand Mahtab, G.C.I.E., K.C.S.I., I.O.M., Maharajadhiraja Bahadur of Burdwan.

Mr. M. O. Carter, M.C., I.C.S.

Khan Bahadur Saiyed Muazzamuddin Hosain, M.L.C.

Khan Bahadur Maulvi Hashem Ali Khan, M.L.A.

Mr. S. M. Masih, BARRISTER-AT-LAW.

Khan Bahadur M. A. Momin, C.I.E.

Sir Manmatha Nath Mookerjee, KT.

Dr. Radha Kumud Mookerjee, M.A., P.R.S., PH.D., M.L.C.

Mr. Brojendra Kishore Roy Choudhury.

Sir F. A. Sachse, KT., C.S.I., C.I.E.

Names of two more Moslem members and of one Scheduled Caste member will be announced later on.

Secretary.

Mr. M. O. Carter, M.C., I.C.S.

The terms of reference to the Commission are:—

Generally, to examine the existing land revenue system of Bengal in its various aspects, with special reference to the Permanent Settlement; to estimate the effect of the system on the economic and social structure of Bengal; and its influence on the revenues and administrative machinery of the Provincial

Government; to appraise the advantages and disadvantages of the existing system and to advise what modifications, if any, can and should be made, and in what manner, and in what stages they should be effected. In particular, to examine the following questions:—

(1) To what extent are the underlying principles of the Permanent Settlement of value to the social and economic structure of Bengal? Have those principles been defeated by the commercialization of cultivating rights in land and, if so, to what extent would it be possible and expedient to reassert them by revising the process of commercialization?

(2) Comparing permanently-settled estates with temporarily-settled estates and Government estates, and comparing also the general level of rents in other Provinces and the economic condition of cultivators in Bengal with their condition in other Provinces, what is the case for adjusting the general level of rents of agricultural land in Bengal in one direction or another?

(3) How has the existing machinery for fixing fair and equitable rents in Government and temporarily-settled estates in Bengal worked and how can it be improved? Are there adequate grounds for setting up an organisation for fixing fair rents for cultivators throughout the Province at regular intervals? On what principles should the fixing of fair rents proceed? Is a general fixing of fair rents possible without a radical alteration of the existing land revenue system?

(4) Would it be financially and economically sound to fix the rents of cultivators in perpetuity?

(5) Is it practicable and advisable for Government to acquire all the superior interests in agricultural land so as to bring the actual cultivators into the position of tenants holding directly under Government? If so, what would be the probable cost of such an operation, how long would it be likely to take, and what would be its probable consequences on the economic, financial, administrative, and social structure of the Province? Would it be practicable to maintain the actual cultivators in the position of direct tenants of Government and, if so, by what method and what would be the implications of such a proposal?

(6) How far has subinfeudation among landlords and raiyats affected their economic position as holders of land and to what extent can such position be improved by restrictions on subinfeudation?

(7) To what extent can the credit value of holdings be raised and the borrowing facilities of cultivators improved by reducing the fragmentation of proprietary interest in holdings and by the maintenance of reliable records of title?

(8) Does the existing procedure in Civil and Revenue Courts for realisation of rents operate efficiently and without undue hardship to tenants? What are the defects of the existing procedure, and what measures should be taken to remedy those defects?

Order.—Ordered that the resolution be published in the *Calcutta Gazette* and copies thereof forwarded to the Chairman and members of the Commission.

By order of the Governor,

Secy. to the Govt. of Bengal.

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 15th August, 1938:—

L. A. BILL No. 17 OF 1938.

A Bill to regulate the admission of children to certain industrial employments.

WHEREAS it is expedient to regulate the admission of children to certain industrial employments; It is hereby enacted as follows:—

Short title and extent.

1. (*1*) This Act may be called the Employment of Children Act, 1938.

(*2*) It extends to the whole of British India.

Definition.

2. In this Act "competent authority", in respect of a major port, as defined in the Indian Ports Act, 1908, and in respect of a federal railway, as defined in the Indian Railways Act, 1890, means the Central Government, and in any other case means the Provincial Government. XV of 1908. IX of 1890.

Prohibition of employment of children in certain occupations.

3. (*1*) No child who has not completed his fifteenth year shall be employed or permitted to work in any occupation connected with the transport of passengers, goods or mails by railway.

(*2*) No child who has not completed his fourteenth year shall be employed or permitted to work in any occupation involving the handling of goods within the limits of any port to which for the time being any of the provisions of the Indian Ports Act, 1908, are applicable. XV of 1908.

Penalty.

4. Whoever employs any child or permits any child to work in contravention of the provisions of section 2 or section 3 shall be punishable with fine which may extend to five hundred rupees.

Procedure relating to offences.

5. (*1*) No prosecution under this Act shall be instituted except by or with the previous sanction of an inspector appointed under section 6.

(*2*) No prosecution under this Act shall be instituted in any case where either the employer of a child or the child himself has obtained a certificate from an authority empowered under this Act to grant such certificate that the child has completed his fifteenth or fourteenth year, as the case may be.

(*3*) No Court inferior to that of a Presidency Magistrate or a Magistrate of the first class shall try any offence under this Act.

Appointment of Inspectors.

6. The competent authority may appoint persons to be inspectors for the purpose of securing compliance with the provisions of this Act, and all inspectors so appointed shall be deemed to be public servants within the meaning of the Indian Penal Code. XLV of 1860.

Power to make rules.

7. (*1*) The competent authority may by notification in the official Gazette (and subject to the condition of previous publication) make rules for carrying into effect the provisions of this Act.

(*2*) In particular and without prejudice to the generality of the foregoing power, such rules may—

(*a*) regulate the procedure of inspectors appointed under section 6, and

(*b*) make provision for the grant of certificates of age in respect of young persons in employment or seeking employment, the authorities which may issue such certificates, the charges which may be made therefor, and the manner in which such certificates may be issued.

Amendment of section 6, Act XV of 1908.

8. Sub-section (*1A*) of section 6 of the Indian Ports Act, 1908, and the words, brackets, figure and letter "and sub-section (*1A*)" in sub-section (*2*) of the said section shall be omitted. XV of 1908.

STATEMENT OF OBJECTS AND REASONS.

The Twenty-third Session of the International Labour Conference adopted a Convention in which a special Article for India was inserted, fixing the minimum age at which children may be employed or may work in the transport of passengers, goods or mails by rail, or in the handling of goods at docks, wharves, or quays, at 13 years. This Bill provides for prohibiting the employment of children under 15 in occupations connected with the transport of goods, passengers or mails on railways, and for raising the minimum age for handling goods in docks from 12, the age fixed by section 6 (*1A*) of the Indian Ports Act, 1908, to 14, the age recommended by the Royal Commission on Labour. A simple procedure enabling employers to safeguard themselves against transgressions of the Act by furnishing themselves with, or requiring candidates for employment to possess, certificates of age, is provided in the Bill.

Resolution on the report on the working of the Co-operative Societies in the Presidency of Bengal for the year ending 30th June 1937.

GOVERNMENT OF BENGAL.

Co-operative Credit and Rural Indebtedness Department.

Co-operative Societies.

CALCUTTA, THE 4TH NOVEMBER 1938.

RESOLUTION—No. 2513 C.S.

Read—

The report on the working of the Co-operative Societies in the Presidency of Bengal for the year ending 30th June 1937.

Khan Bahadur A. M. Arshad Ali was in charge of the department throughout the year. There was no change in the superior staff of the department except that Mr. A. Ahmed, I.C.S., Deputy Registrar, was appointed Director, Debt Conciliation, Eastern Circle, from 21st December 1936; from 9th April 1937, however, he was re-appointed Deputy Registrar in addition to his duties as Director, Debt Conciliation, Eastern Circle. As a measure of economy the five Sub-Deputy Collectors employed as Managers of Land Mortgage Banks reverted to their normal duties with effect from 1st May 1937, and were replaced by trained Auditors of Co-operative Societies. The sanctioned scheme for decentralisation of general supervision and control on the one hand and audit on the other could not be given effect to during the year, because it was necessary to postpone the introduction of this system until the training of all Inspectors and Auditors had been completed; this training commenced towards the close of the year.

2. The department continued the policy of cautious expansion in new directions and of improvement of the existing position by gradually restoring the equilibrium between the financial position of the Provincial Bank, Central Banks and the Primary Societies, and regaining the confidence of the investing public in these institutions, with the ultimate object of converting these credit institutions into agencies for advancing short-term loan only for productive purposes and raising of crops, and of leaving the field of long-term business required by the agriculturists to Co-operative Land Mortgage Banks. The total number of societies of all classes rose from 23,529 to 24,221 during the year.

3. The weather conditions were generally not favourable but on the whole the outturn of crops was better than in the previous year. In spite of this fact the efforts to improve the collection of dues of the Central Banks brought little success for the following reasons :—

(*i*) The huge accumulation of arrears had induced a feeling of despair among members, who too readily excused themselves from paying on the plea that the economic depression was still continuing.

(*ii*) The Central Banks found themselves unable to reduce the rate of interest to the level of the present-day paying-capacity of the agriculturist members.

(*iii*) In the absence of any summary powers of recovery moral persuasion and pressure were ceasing to have any effect.

4. Although the Central Banks decided to restrict their investments in village societies to advancing short-term loans for agricultural and productive purposes only, much headway could not be made; difficulties in making effective arrangements for realisation of the heavy existing overdues rendered the Banks unable to return deposits as they matured or to formulate any constructive scheme on business principles for future work. In order, however, to facilitate realisation an enquiry was set on foot for ascertaining the actual repaying capacity of the individual members of village societies. It is hoped that now that this enquiry is completed, steps will be taken for scaling down the overdues of a society and of its individual members to an extent commensurate with their paying capacity and consistent with the financial solvency of the society and the Central Bank concerned. Thereafter if remissions are granted as a set-off against the

reserve fund and other owned capital of the society, the present despondency of the borrowers should be removed and the financial side of the movement strengthened.

5. Although the average borrowing rate of Central Banks was generally reduced from 8 to 5 per cent., for the reasons given below, the interest generally charged to village societies still ranged between 9-3/8 and 10½ per cent., and consequently the interest charged by societies to individual borrowers could not be reduced below 10-15/16 per cent. :—

(*i*) The unfavourable ratio of obligatory charges to the invested capital bearing interest.

(*ii*) Disproportionate amount of bad debts in comparison with good assets of the Bank and with its outside liabilities.

(*iii*) Impracticability of reduction of the cost of establishment below a certain minimum standard because such reduction would adversely affect collection and good administration.

6. The success of the movement largely depends on regularity of repayment of loans taken by members. Unfortunately a tendency towards slow and leisurely payment is gaining ground even among solvent members of Co-operative Societies, a tendency which it has become necessary immediately to counteract. It has accordingly been proposed to invoke the aid of the Legislature for investing the department with power to recover sums due to Co-operative Societies by certificate procedure.

7. The five Land Mortgage Banks continued to receive Government aid as they could not yet become self-supporting, although they reduced their cost of management by replacing Sub-Deputy Collector Managers by Co-operative Auditors. The working of Debt Settlement Boards retarded their business-progress to a certain extent, because prospective applicants were waiting to see how these Boards could reduce their old debts before they took steps to borrow in order to liquidate them. Measures have since been adopted to co-ordinate the working of Debt Settlement Boards with that of Land Mortgage Banks by establishing Special Debt Settlement Boards for the purpose in places where Land Mortgage Banks have been established. Another contributory cause operating to retard the progress of the Banks was the fact that in many cases would-be applicants could not persuade all their co-sharers to join in making the application. In the absence of effective measures for speedy recovery of the dues of Land Mortgage Banks, it was not possible to float debentures on the mortgages obtained by them. Since the close of the year an amendment of the Bengal Public Demands Recovery Act has been passed by the Legislature authorising the use of certificate procedure for recovery of the dues of Land Mortgage Banks. Steps are also being taken to remove certain legal difficulties in the way of the execution of Trust Deeds by including proper provision in the Co-operative Societies' Bill designed to be introduced at an early date. It is hoped that these measures would enable the Land Mortgage Banks to become self-supporting in the near future and will justify the extension of the system to other districts where such Banks have not yet been established.

8. The scheme of Better Living Societies (hitherto called rural reconstruction) on co-operative lines made further expansion of agricultural non-credit societies possible. It is gratifying to note that about 500 rural reconstruction societies were registered during the year under report. The programme of these societies includes improvement of the economic condition of members by adoption of subsidiary occupations such as vegetable gardening, poultry farming, and handloom weaving, spread of primary and vocational education and improvement of sanitation.

9. Steps were taken for the reorganisation of the Co-operative Industrial Unions and Weavers' Societies with the help of the Government of India grant. An expert staff was maintained to train the weavers in new designs and fine weaving. Sizing and calendering machines have also been supplied to one Co-operative Industrial Union. As a result of these measures 2,206 men have been trained in improved patterns of weaving and 120 new designs have been introduced and adopted by the weaver members of the societies. Members have also been trained in the method of dyeing fast shades. An Industrial Home for the women handloom workers has been

started in a suburb of Calcutta, and the Government of India have, since the close of the year, sanctioned a grant-in-aid for it out of their handloom grant.

10. The most important event of the year was the decision taken by Government with the sanction of the old Legislature to make a subsidy of Rs. 24 lakhs at the rate of Rs. 2 lakhs a year to the Bengal Provincial Co-operative Bank which is the pivot of the co-operative movement in the province, so as to enable it to make good the loss due to the failure of the Jute Sale and Supply Societies and to build up a reserve with a view to reduction of interest rates charged to Central Banks and Primary Societies. The first instalment of Rs. 2 lakhs was paid during the year. Assistance was also given to the Bank by deputation of expert officers for carrying the annual and running audits of the Bank for a period of three years and the Bank has been exempted from the payment of audit fees during the same period.

11. Government are greatly concerned over the recent cases of defalcation in certain Central and important Urban Banks involving large sums of money. Adequate action has been taken in all cases to penalise the persons found responsible for such defalcation. Additional safeguards have been prescribed by the department, and arrangements are being made to ensure that the running audit of all Central and important Urban Banks shall be carried on throughout the year as far as possible. Government hope that, when the additional staff recently appointed and now under training at Dum Dum is available and ready for active duty these precautionary measures will make defalcations absolutely impossible or at any rate will reduce their chances to the minimum.

12. With the grant made available by the Government of India a Co-operative Training Institute for the training of departmental staff was established at Dum Dum near Calcutta in April 1937 with Rai S. K. Ganguli Bahadur, *ex*-Registrar of Co-operative Societies, Bengal, as the Officer-in-charge. The first batch of Inspectors was under training during the year. It is proposed to train all the departmental Inspectors and Auditors as well as supervisors and members of Central Banks and Primary Societies. The training of Inspectors has been completed after the close of the year under report and the training of Auditors has commenced.

13. The thanks of Government are due to Khan Bahadur A. M. Arshad Ali for his administration of the department during the year. Government have much pleasure in acknowledging the assistance rendered to the movement by the various district and subdivisional officers named by the Registrar. Government also notice with pleasure the good work done by certain departmental officers.

By order of the Governor,

Joint Secy. to the Govt. of Bengal.

Resolution on the final report on the Survey and Settlement Operations in the district of Murshidabad.

GOVERNMENT OF BENGAL.

Land Revenue.

DARJEELING, THE 27TH OCTOBER 1938.

RESOLUTION No. 972T.R.

Read—

The final report on the Survey and Settlement Operations in the district of Murshidabad.

Letter No. 3771 S. & S., dated 3rd March 1938, and enclosures, from the Secretary to the Board of Revenue, Bengal, containing the comments of the Director of Land Records and Surveys, Bengal, and the Board of Revenue on the report.

Letter No. 1717 R.L., dated 17th June 1938, and enclosure, from the Commissioner of the Presidency Division containing the comments of the Collector of Murshidabad and of the Commissioner of the Presidency Division on the report.

The inception of the survey and settlement operations in the district of Murshidabad was sanctioned in 1920, but, after traverse survey had been completed in the first block of the district, the operations had to be postponed on account of financial stringency. Subsequently, the operations were started in 1924 along with the operation in the district of Birbhum in a single operation.

2. The district is divided almost equally by the river Bhagirathi into two well marked regions, commonly known as the Rarh and the Bagri. The area of the district is 2,043 square miles of which 1,684 square miles is cultivable. The area actually cultivated was found to be 1,470 square miles or nearly 87 per cent. of the total cultivable area. This shows that the extent of cultivation in the district has reached its limits. Paddy is the main crop of the district and is grown on 76 per cent. of the total cropped area. Taking the district as a whole the percentage of area which grows more than one crop is 32·83 of the net cropped area and the balance of 67·17 per cent. yields but one crop.

3. The population of the district was 1,370,677 in 1931 against 1,214,104 in 1872, indicating an increase of only 13 per cent. during the last 60 years. This slow progress in the growth of the population is ascribed to the ravages of malaria and other epidemic diseases to which the district had been subject from time to time. The health of the district is still far from satisfactory in spite of considerable public and private efforts to effect an improvement.

4. The main occupation in the district is agriculture. The total number of agricultural interests comes to 985,596 and the area covered by them is 1,215,314 acres, or in other words the average area per interest is 1·23 acres only. The interests of raiyats of all classes represent nearly 73 per cent. of the total interests of the district and about 58 per cent. of raiyats are found to have rights of occupancy in their holdings. The economic position of the district is not very satisfactory. Agriculture—the main source of income—is reported to suffer considerably owing to defects in the sources of irrigation and drainage. The Settlement Officer has made certain suggestions for the improvement of the irrigation and drainage system in the district and these will receive the careful consideration of Government.

5. In 1928-29 the total revenue demand of the district was Rs. 10,40,502 for 2,378 estates borne on the register of revenue-paying estates in the district. As a result of diara proceedings 169 new diara estates were formed covering an area of 7,564 acres with a total demand of Rs. 20,285. The total area of estates lying in the district which are borne on the register of revenue-paying estates of other districts was found to be 129,043 acres. A total area of 31,810 acres of land was recorded in the district as held free of revenue. This area was composed of grants made by the ancient Indian rulers for certain specific purposes.

The rent of the raiyats varies in different parts of the district, and, in the opinion of the Settlement Officer, the varying rent rates represent the quality of the land in the various parts of the district. The average incidence of settled and occupancy raiyats is Rs 3-7 while that of the raiyats at fixed rates is Rs 2-15-1 an acre.

6. Like the district of Nadia this district contains a considerable area held under the *utbandi* system. The total area of nominal *utbandi* found in course of the operation was 45·82 square miles and that of real *utbandi* 22·57 square miles. Another system known as *begar* was found to have grown up in the district, in which homestead lands were held by poorer people without any payment of rent It is satisfactory to note that during the operations under review it was possible through strenuous efforts on the part of the Settlement Officer to commute 90 per cent. of these *begars* to definite money rents.

7. The gross cost of the joint operation in Murshidabad and Birbhum came to Rs. 37,68,073 as against Rs. 36 80,973, sanctioned in the inception proposals. The excess was mainly due to a larger area being taken up than was contemplated in the original estimate.

8. The Governor desires to place on record his appreciation of the work done by all officers in carrying out the operations to a successful conclusion. His thanks are specially due to Rai Bijay Behari Mukherji Bahadur for the able manner in which he conducted the operation and for his very interesting report

Accommodation for servants.

7. Except in special sites, where in the opinion of the Commissioners, the conditions are such that the provision of this rule may be relaxed, no building the annual valuation of which is estimated from the plan to be Rs. 180 or more, shall be erected without providing for decent servants' quarters which must be proportionately big and commensurate with the maximum requirement of the possible number of inmates which such building is capable of housing.

Height of building.

8. (*1*) Except in special sites where, in the opinion of the Commissioners, the conditions are such that the provisions of this rule may be relaxed, the height of a building shall be regulated by the width of the surrounding open space in the same holding *plus* the width of the road or roads, if any, in the following manner, namely :—

(*i*) if such width in any direction be *twenty* feet or *less* the height of the building shall not exceed fourteen feet in that direction;

(*ii*) if such width in any direction be over twenty feet, but *under* twenty-eight feet, the height of the building shall not exceed twenty-three feet in that direction; and

(*iii*) if such width in any direction be *twenty-eight* feet or *over* the height of the building shall not exceed thirty feet in that direction.

(*2*) In every case in which the provisions of sub-rule (*1*) are relaxed the material and method of construction of the building must be such as may be prescribed by the Commissioners.

Level of floor

9. The floor or lowest floor of every building erected or re-erected from the ground level must be constructed at such level as will admit of—

(*a*) the construction of a drain sufficient for the effectual drainage of the building and placed at such level as will admit of the drainage being led into some drain at the time existing or projected, and

(*b*) there being a ventilated air space of at least six inches in depth between the underside of the floor joists and the ground level.

Building over drain.

10. A building shall not be placed over any drain, except with the written permission of the Commissioners.

Part IV—Masonry buildings and framed buildings generally.

Foundation.

11. The foundation of a masonry or framed building must rest on solid ground or rock.

Footings for walls.

12. (*1*) The projection of the bottom of the footings on each side of such wall of a masonry or framed building must be at least one-fourth of the thickness of the wall at its base.

(2) The height from the bottom of such footings to the base of each wall must be at least two-thirds of the thickness of the wall at its base.

(3) Except where the foundation is a rock, the bottom of such footings shall not be less than three feet below the ground level.

(4) When a wall is built on rock, footings may be omitted if the surface of the rock is properly cleaned and stepped to receive the first course of masonry.

External and cross-walls of one-storied or two-storied buildings.

13. (1) The external and cross-walls of a masonry or framed building of one or two storeys must be built of—

(a) stone or concrete brick bedded in cement mortar;

(b) timber or iron framings covered with corrugated or plain iron, or planked, or with metal lath and plaster:

Provided that if any of the said cross-walls are intended for partitions only and do not support any wall in the upper storey, they may be built of timber framing planked with boards or corrugated iron or metal lath and plaster.

(2) The external and cross-walls of the upper storey of a masonry or framed building of two storeys must be built of the materials specified in clause (a) or clause (b) of sub-rule (1).

External and cross-walls of three-storied buildings.

14. (1) The external and cross-walls of the lowest storey of a masonry or framed building of three storeys must be built of:—

(a) stone bedded in cement mortar, or

(b) iron, wood, or ferro-concrete framing covered with corrugated iron, or plain iron or metal lath and plaster, or wooden planking; and

(2) the external and cross-walls of the storey next above the lowest storey of such a building must be built of similar materials:

Provided that if any of the cross-walls in either of the said storeys are intended for partitions only and do not support any wall in the storey above, they may be built of planked timber framing.

(3) The external and cross-walls of the top-most storey of a masonry or framed building of three storeys must be built of timber, or iron, or ferro-concrete framing, covered with corrugated or plain iron or planked.

Party-walls.

15. The party-walls of a masonry or framed building must be built of stone or brick bedded in lime or cement mortar for their full height; and, if the Commissioners so direct, must be carried up, of a thickness of not less than nine inches, above the roof, flat or gutter to such a height as will give a distance of at least eighteen inches measured at right angles to the slope of the roof above the highest part of the roof, flat or gutter.

Damp-proof course.

16. (1) Every wall of a masonry or framed building must have a damp-proof course at or above the level of the ground floor.

(2) Such damp-proof course may consist of sheet-lead, asphalt, slates laid in cement, vitrified bricks or any other durable material impervious to moisture.

Roofs.

17. (1) The roof of every masonry or framed building must be constructed of corrugated or plain iron, lead, slates, tiles or ferro-concrete:

Provided that, with the written permission of the Commissioners, any such roof may be constructed of shingles securely attached to a frame of iron or timber.

(2) The rise of the roof shall not in any case be less than one-eighth of the span in the case of a roof with corrugated or plain iron, lead, slates or tiles.

Floors.

18. The floors of every masonry or framed building must be constructed to bear safely the maximum load to be carried, such load being taken in the case of planked floors in dwelling houses as not less than sixty pounds per square foot including the weight of the floor.

Beams and girders.

19. (1) All beams and girders in a masonry or framed building must be supported by a breadth of stone or other solid substances sufficient to secure their stability. In the case of stone walls, bed plates of steel, stone slabs or concrete slabs are to be provided under the beams to distribute the direct load and guard against crushing.

(2) The bearing of a beam or girder on a wall shall not, without the sanction of the Commissioners, be less than three-fourths of the thickness of the wall.

Iron work.

20. All iron posts, girders or joists or other iron work used for the support of any portion of a masonry or framed building must be of such quality and strength as are approved by the Commissioners.

Repairing, painting or colour-washing any part of a building.

21. If the roof or walls of any building are, in the opinion of the Commissioners, in an unsightly condition they may by written order direct the owner to repair, paint or colour-wash such part of the building as they may direct within a period to be specified in the order.

Part V—Ferro-concrete buildings.

Foundations, walls, roofs, floors and design of ferro-concrete buildings.

22. (*1*) The foundation of ferro-concrete building must rest on a solid ground or rock.

(*2*) The depth of foundation for ferro-concrete buildings must be to the satisfaction of the Municipal Engineer.

(*3*) The spread of foundation wall bases shall be so designed that the intensity of uniform pressure on soil does not exceed half ton per square foot, except in the case of solid rock, in which case the allowable pressure will be determined by the Municipal Engineer.

(*4*) The external and cross-walls of a ferro-concrete building not carrying any load except its own weight may be built of timber or iron framing covered with corrugated or plain iron sheets, metal lath and plaster, planked or ferro-concrete walling of not less than three inches thick.

(*5*) The party or end wall of a ferro-concrete building must be built to such a height above roof level as may be required by the Commissioners.

(*6*) Every wall of a ferro-concrete building except those constructed entirely of cement concrete must have a damp-proof course at or above the level of the ground floor which may consist of sheet lead, asphalt or slates, stones or vitrified bricks laid in cement or any other durable material impervious to moisture.

(*7*) The roof of a ferro-concrete building may be of reinforced concrete laid to a fall of at least 1 in 150 and be sufficiently strong to carry a load of 40 lbs. per square foot excluding its own weight. If plain or corrugated iron or lead sheets, slates or tile roofing are used, the rise should in no case be less than one-eighth of the span.

(8) The floors of ferro-concrete buildings shall be designed to carry live loads as shown in the following schedule in addition to its own weight:—

Schedule of live loads.
